

BISHOP STREET FUNDS

Hawaii Municipal Bond Fund (Class A Shares Ticker Symbol: BHIAX) (Class I Shares Ticker Symbol: BSHIX)

Supplement dated June 11, 2025 to:

- The Statement of Additional Information for the Hawaii Municipal Bond Fund, dated May 1, 2025 (the “SAI”).

This supplement provides new and additional information beyond that contained in the SAI and should be read in conjunction with the SAI.

Andrew Sutton, a portfolio manager of the Hawaii Municipal Bond Fund (the “Fund”), has departed Bishop Street Capital Management, LLC (“Bishop Street”), the Fund’s investment adviser. In connection therewith, Joshua Lam, the Manager of the Asset Management department of Bishop Street’s Institutional Advisory Services Division, has been added as a Co-Portfolio Manager of the Fund. Stephanie Nomura, President of Bishop Street, will continue to serve as Senior Portfolio Manager of the Fund. Accordingly, effective immediately, the SAI is hereby amended and supplemented as follows:

1. *All references to Mr. Sutton are hereby deleted from the SAI.*
2. *The row relating to Mr. Sutton in the “Fund Shares Owned by the Portfolio Managers” table in “The Portfolio Managers” section of the SAI is hereby deleted and replaced with the following:*

Name	Dollar Range of Fund Shares Owned
Joshua Lam*	None

* Valuation Date is May 31, 2025.

3. *The row relating to Mr. Sutton in the “Management of Other Accounts” table in “The Portfolio Managers” section of the SAI is hereby deleted and replaced with the following:*

Name	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets (in millions)	Number of Accounts	Total Assets (in millions)	Number of Accounts	Total Assets (in millions)
Joshua Lam*	0	\$0	0	\$0	22	\$1,190

* Valuation date is May 31, 2025.

PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE

BSF-SK-026-100

STATEMENT OF ADDITIONAL INFORMATION

BISHOP STREET FUNDS®

May 1, 2025

Investment Adviser:

Bishop Street Capital Management, LLC
(the “Adviser”)

This Statement of Additional Information (“SAI”) is not a prospectus. It is intended to provide additional information regarding the activities and operations of Bishop Street Funds (the “Trust”) and should be read in conjunction with the Trust’s prospectuses, each dated May 1, 2025, as each may be amended from time to time (the “Prospectuses”). This SAI relates to the following series of the Trust (the “Fund”):

Hawaii Municipal Bond Fund

(Class A Shares Ticker Symbol: BHIAX)

(Class I Shares Ticker Symbol: BSHIX)

This SAI is incorporated by reference into the Prospectuses. Capitalized terms not defined herein are defined in the Prospectuses. The Fund’s audited financial statements dated December 31, 2024, including notes thereto and the report of the Fund’s independent registered public accounting firm thereon, are included in the most recent [Form N-CSR](#) for the Fund, and are incorporated by reference into this SAI. Shareholders may obtain copies of the Prospectuses, the Fund’s annual or semi-annual reports, and other information such as the Fund’s financial statements, free of charge, by writing to the Fund at Bishop Street Funds, c/o SS&C Global Investor & Distribution Solutions, Inc., PO Box 219009, Kansas City, MO 64121-9009, by calling the Fund at 1-800-262-9565 or by visiting the Fund’s website at www.bishopstreetfunds.com.

THE TRUST

General. The Fund is a separate series of the Trust, an open-end management investment company. The Trust is organized under Massachusetts law as a voluntary association (commonly known as a business trust) under an Amended and Restated Agreement and Declaration of Trust dated September 1, 1994, as amended May 15, 2012 (the “Declaration of Trust”). The Declaration of Trust permits the Trust to offer separate series of units of beneficial interest (known as shares) and separate classes of shares.

Shareholders may purchase shares in the Fund through two separate classes, Class A and Class I, which provide for variations in sales charges, distribution and shareholder servicing costs, transfer agent fees, voting rights and dividends. Except for differences between the Class A Shares and the Class I Shares pertaining to sales charges, distribution and shareholder servicing, voting rights, dividends and transfer agent expenses, each share of each series represents an equal proportionate interest in that series. Please see “Description of Shares” for more information.

Voting Rights. Each share held entitles the shareholder of record to one vote and each fractional share is entitled to a proportionate fractional vote. The Fund will vote separately on matters relating solely to it. As a Massachusetts business trust, the Trust is not required, and does not intend, to hold annual meetings of shareholders. Shareholder approval may be sought, however, for certain changes in the operation of the Trust and for the election of Trustees under certain circumstances. Under the Declaration of Trust, the Trustees have the power to liquidate the Fund without shareholder approval, which they may exercise if the Fund fails to reach or maintain a viable size or for some other extraordinary reason as may be determined by the Board of Trustees of the Trust (each, a “Trustee” and collectively, the “Board”).

In addition, a Trustee may be removed by the remaining Trustees or by shareholders at a special meeting called upon written request of shareholders owning at least 10 percent of the outstanding shares of the Trust. In the event that such a meeting is requested, the Trust will provide appropriate assistance and information to the shareholders requesting the meeting.

Non-Diversification. The Fund is non-diversified, as that term is defined under the Investment Company Act of 1940, as amended (the “1940 Act”), which means that it may invest a greater percentage of its total assets in the securities of fewer issuers than a “diversified” fund, which increases the risk that a change in the value of any one investment held by the Fund could affect the overall value of the Fund more than it would affect that of a “diversified” fund holding a greater number of investments. Accordingly, the value of the shares of the Fund may be more susceptible to any single economic, political or regulatory occurrence than the shares of a “diversified” fund would be. The Fund intends to satisfy the diversification requirements necessary to qualify as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”). For more information, see “Taxes” below.

DESCRIPTION OF PERMITTED INVESTMENTS

The following are descriptions of the permitted investments and investment practices of the Fund and the associated risk factors. The Fund’s principal investment strategies and the risks associated with the same are described in the “Summary Section,” “More Information about Risk,” and “More Information about Fund Investments” sections of the Prospectuses. The following discussion provides additional information about those principal investment strategies and related risks, as well as information about investment strategies (and related risks) that the Fund may utilize, even though they are not considered to be “principal” investment strategies. Accordingly, an investment strategy (and related risk) that is described below, but which is not described in the Prospectuses, should not be considered to be a principal strategy (or related risk) applicable to the Fund. The table below identifies which investments, investment practices and risk factors, including those that may not be principal strategies or risks, apply to the Fund.

Legend

- % - Maximum percentage permissible. All percentages shown are of total assets unless otherwise noted.
- √ - No policy limitation; Fund may be currently using.
- *
- - Permitted, but not typically used.
- - Not permitted.

American Depositary Receipts	-
Asset-Backed Securities	-
Bank Obligations	-
Commercial Paper	-
Convertible Securities	-
Corporate Debt Obligations	-
Equity Securities	-
Futures	-
Investment Company Shares	10%
Mortgage-Backed Securities	-
Municipal Securities	√ ²
Options	-
Repurchase Agreements	20% ¹
Restricted Securities	15%
Securities of Foreign Issuers	-
Supranational Agency Obligations	-
U.S. Government Agency and Treasury Obligations	20% ¹
Variable & Floating Rate Instruments	√
Zero Coupon Obligations	√
Securities Lending	33 1/3%
Standby Commitments	33%
When-Issued Securities	33%

¹ Percentage is based on net assets, not total assets.

² Shall invest at least 80 percent of its net assets (plus any borrowings for investment purposes), under normal circumstances, in investment grade municipal bonds the interest from which is exempt from regular federal and Hawaii state income taxes.

AMERICAN DEPOSITARY RECEIPTS (“ADRs”) are securities typically issued by U.S. financial institutions (depositories). ADRs represent ownership interests in a security, or a pool of securities, issued by a foreign issuer and deposited with the depository. ADRs may be available through “sponsored” or “unsponsored” facilities. A sponsored facility is established jointly by the issuer of the security underlying the receipt and a depository. An unsponsored facility may be established by a depository without the participation of the issuer of the underlying security.

ADJUSTABLE RATE MORTGAGE SECURITIES (“ARMs”) are pass-through certificates representing ownership in a pool of adjustable rate mortgages. ARMs make monthly payments based on a pro rata share of interest and principal payments, and prepayments of principal on the pool of underlying mortgages. The adjustable rate feature reduces, but does not eliminate, price fluctuations in this type of mortgage-backed security.

ASSET-BACKED SECURITIES are securities backed by non-mortgage assets such as company receivables, truck and auto loans, leases and credit card receivables. These securities are generally issued as pass-through certificates, which represent undivided fractional ownership interests in the underlying pools of assets. Asset-backed securities may also be obligations, which are also known as collateralized obligations and are generally issued as the debt of a special purpose entity, such as a trust, organized solely for the purpose of owning these assets and issuing debt obligations.

BANK OBLIGATIONS are **SHORT-TERM OBLIGATIONS** issued by U.S. and foreign banks, including bankers’ acceptances, certificates of deposit, custodial receipts, and time deposits.

COMMERCIAL PAPER is a term used to describe unsecured short-term promissory notes issued by municipalities, corporations, and other entities that have maturities generally from a few days to nine months.

CONVERTIBLE SECURITIES are bonds, debentures, notes, preferred stocks or other securities that may be converted or exchanged (by the holder or by the issuer) into shares of the underlying common stock (or cash or securities of equivalent value) at a stated exchange ratio. A convertible security may also be called for redemption or conversion by the issuer after a particular date and under certain circumstances (including a specified price) established upon issue. If a convertible security held by the Fund is called for redemption or conversion, the Fund could be required to tender it for redemption, convert it into the underlying common stock, or sell it to a third party.

Convertible securities generally have less potential for gain or loss than common stocks. Convertible securities generally provide yields higher than the underlying common stocks, but generally lower than comparable non-convertible securities. Because of this higher yield, convertible securities generally sell at a price above their “conversion value,” which is the current market value of the stock to be received upon conversion. The difference between this conversion value and the price of convertible securities will vary over time depending on changes in the value of the underlying common stocks and interest rates. When the underlying common stocks decline in value, convertible securities will tend not to decline to the same extent because of the interest or dividend payments and the repayment of principal at maturity for certain types of convertible securities. However, securities that are convertible other than at the option of the holder generally do not limit the potential for loss to the same extent as securities convertible at the option of the holder. When the underlying common stocks rise in value, the value of convertible securities may also be expected to increase. At the same time, however, the difference between the market value of convertible securities and their conversion value will narrow, which means that the value of convertible securities will generally not increase to the same extent as the value of the underlying common stocks. Because convertible securities may also be interest-rate sensitive, their value may increase as interest rates fall and decrease as interest rates rise. Convertible securities are also subject to credit risk, and are often lower-quality securities.

CORPORATE DEBT OBLIGATIONS are debt securities issued by public or private companies to finance their operations. The issuer of the security has a contractual obligation to pay interest on specific dates at a stated rate and to repay principal on a specified maturity date. Corporate debt obligations may expose the Fund to the following types of risk: (1) interest rate risk (the potential for fluctuations in bond prices due to changing interest rates); (2) income risk (the potential for a decline in the Fund’s income due to falling market interest rates); (3) credit risk (the possibility that a bond issuer will fail to make timely payments of either interest or principal to the Fund); (4) prepayment risk or call risk (the likelihood that, during periods of falling interest rates, securities with high stated interest rates will be prepaid, or “called” prior to maturity, requiring the Fund to invest the proceeds at generally lower interest rates); and (5) extension risk (the likelihood that as interest rates increase, slower than expected principal payments may extend the average life of fixed income securities, which will have the effect of locking in a below-market interest rate, increasing the security’s duration and reducing the value of the security).

EQUITY SECURITIES represent ownership interests in a company and consist of common stocks, preferred stocks, warrants to acquire common stock and securities convertible into common stock. Investments in equity securities in general are subject to market risks that may cause their prices to fluctuate over time. Fluctuations in the value of equity securities in which a fund invests will cause the net asset value of the fund to fluctuate. The Fund purchases equity securities traded in the United States on registered exchanges or the over-the-counter market. Equity securities are described in more detail below:

- **Common Stock.** Common stock represents an equity or ownership interest in an issuer. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds and preferred stock take precedence over the claims of those who own common stock.
- **Preferred Stock.** Preferred stock represents an equity or ownership interest in an issuer that pays dividends at a specified rate and that has precedence over common stock in the payment of dividends. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds take precedence over the claims of those who own preferred and common stock.

FOREIGN SECURITIES are U.S. dollar denominated obligations of foreign issuers and may consist of obligations of foreign branches of U.S. banks and of foreign banks, including European Certificates of Deposit, European Time Deposits, Canadian Time Deposits, Yankee Certificates of Deposits, investments in Canadian Commercial Paper, foreign securities, ADRs and Europaper. Foreign securities have investment risks that differ in some respects from those related to investments in obligations of U.S. domestic issuers. Such risks include future adverse political and economic developments, the possible imposition of withholding taxes on interest or other income, possible seizure, nationalization or expropriation of foreign deposits, the possible establishment of exchange controls or taxation at the source, greater fluctuations in value due to changes in exchange rates, or the adoption of other foreign governmental restrictions that might adversely affect the payment of principal and interest on such obligations. Such investments may also entail higher custodial fees and sales commissions than domestic investments. Foreign issuers of securities or obligations are often subject to accounting treatment and engage in business practices different from those respecting domestic issuers of similar securities or obligations. Foreign branches of U.S. banks and foreign banks may be subject to less stringent reserve requirements than those applicable to domestic branches of U.S. banks. Periodic U.S. Government restrictions on investments in issuers from certain foreign countries may result in the Fund having to sell such prohibited securities at inopportune times. Such prohibited securities may have less liquidity as a result of such U.S. Government designation and the market price of such prohibited securities may decline, which may cause the Fund to incur losses.

Given the increasing interdependence among global economies and markets, conditions in one country, region or market might adversely affect financial conditions or issuers in other countries, regions or markets. For example, on January 31, 2020, the United Kingdom (the “UK”) formally withdrew from the European Union (the “EU”) (commonly referred to as “Brexit”). Following a transition period, the UK and the EU signed a post-Brexit trade agreement governing their future economic relationship on December 30, 2020. This agreement became effective on a provisional basis on January 1, 2021 and formally entered into force on May 1, 2021. While the full impact of Brexit is unknown, Brexit has already resulted in volatility in European and global markets. The effects of Brexit on the UK and EU economies and the broader global economy could be significant, resulting in negative impacts, such as business and trade disruptions, increased volatility and illiquidity, and potentially lower economic growth of markets in the UK, EU and globally, which could negatively impact the value of the Fund's investments. Brexit could also lead to legal uncertainty and politically divergent national laws and regulations while the new relationship between the UK and EU is further defined and the UK determines which EU laws to replace or replicate. Additionally, depreciation of the British pound sterling and/or the euro in relation to the U.S. dollar following Brexit could adversely affect Fund investments denominated in the British pound sterling and/or the euro, regardless of the performance of the investment.

In addition, on February 24, 2022, Russian military forces invaded Ukraine, significantly amplifying already existing geopolitical tensions among Russia, Ukraine, Europe, NATO, and the West. Following Russia's actions, various countries, including the U.S., Canada, the UK, Germany, and France, as well as the EU, issued broad-ranging economic sanctions against Russia. The sanctions consist of the prohibition of trading in certain Russian securities and engaging in certain private transactions, the prohibition of doing business with certain Russian corporate entities, large financial institutions, officials and oligarchs, and the freezing of Russian assets. The extent and duration of the war in Ukraine and the longevity and severity of sanctions remain unknown, but they could have a significant adverse impact on the European economy as well as the price and availability of certain commodities, including oil and natural gas, throughout the world. These sanctions, and the resulting disruption of the Russian economy, may cause volatility in other regional and global markets and may negatively impact the performance of various sectors and industries, as well as companies in other countries, which could have a negative effect on the performance of the Fund, even if the Fund does not have direct exposure to securities of Russian issuers.

Whether or not the Fund invests in securities of issuers located in Europe or with significant exposure to European issuers or countries, these events could negatively affect the value and liquidity of the Fund's investments due to the interconnected nature of the global economy and capital markets.

Similarly, armed conflict between Israel and Hamas and other militant groups in the Middle East and related events could cause significant market disruptions and volatility. This conflict could disrupt regional trade and supply chains, potentially affecting U.S. businesses with exposure to the region. Additionally, the Middle East plays a pivotal role in the global energy sector, and prolonged instability could impact oil prices, leading to increased costs for businesses and consumers. These and any related events could significantly impact the Fund's performance and the value of an investment in the Fund, even if the Fund does not have direct exposure to affected issuers.

FUTURES AND OPTIONS ON FUTURES - Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a specific security at a specified future time and at a specified price. An option on a futures contract gives the purchaser the right, in exchange for a premium, to assume a position in a futures contract at a specified exercise price during the term of the option. The Fund will reduce the risk that it will be unable to close out a futures contract by only entering into futures contracts that are traded on a national futures exchange regulated by the Commodities Futures Trading Commission ("CFTC"). The Fund may use futures contracts and related options for bona fide hedging; attempting to offset changes in the value of securities held or expected to be acquired or be disposed of; attempting to minimize fluctuations in foreign currencies; attempting to gain exposure to a particular market, index or instrument; or other risk management purposes.

Pursuant to rules adopted under the Commodity Exchange Act ("CEA") by the CFTC, the Fund must either operate within certain guidelines and restrictions with respect to the Fund's use of futures, options on such futures, commodity options and certain swaps, or the Adviser will be subject to registration with the CFTC as a "commodity pool operator" ("CPO").

Consistent with the CFTC's regulations, the Adviser, on behalf of the Fund, has filed a notice of exclusion from the definition of the term CPO under the CEA pursuant to CFTC Rule 4.5 with respect to the Fund's operation. Therefore, the Fund is not subject to regulation as a commodity pool under the CEA and the Adviser is not subject to registration or regulation as a CPO under the CEA with respect to the Fund. As a result, the Fund will be limited in its ability to use futures, options on such futures, commodity options and certain swaps. Complying with the limitations may restrict the Adviser's ability to implement the Fund's investment strategies and may adversely affect the Fund's performance.

An index futures contract is a bilateral agreement pursuant to which two parties agree to take or make delivery of an amount of cash equal to a specified dollar amount times the difference between the index value at the close of trading of the contract and the price at which the futures contract is originally struck. No physical delivery of the securities comprising the index is made; generally contracts are closed out prior to the expiration date of the contract.

There are significant risks associated with the Fund's use of futures contracts and related options, including the following: (1) the success of a hedging strategy may depend on the Adviser's ability to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates, (2) there may be an imperfect or no correlation between the changes in market value of the securities held by the Fund and the prices of futures and options on futures, (3) there may not be a liquid secondary market for a futures contract or option, (4) trading restrictions or limitations may be imposed by an exchange, and (5) government regulations may restrict trading in futures contracts and options on futures. In addition, some strategies reduce the Fund's exposure to price fluctuations, while others tend to increase its market exposure.

GNMA SECURITIES are securities issued by the Government National Mortgage Association ("GNMA"), a wholly-owned U.S. government corporation, and guarantee the timely payment of principal and interest. The market value and interest yield of these instruments can vary due to market interest rate fluctuations and early prepayments of underlying mortgages. These securities represent ownership in a pool of federally insured mortgage loans. GNMA certificates consist of underlying mortgages with a maximum maturity of 30 years. However, due to scheduled and unscheduled principal payments, GNMA certificates have a shorter average maturity and, therefore, less principal volatility than a comparable 30-year bond. Since prepayment rates vary widely, it is not possible to accurately predict the average maturity of a particular GNMA pool. GNMA securities differ from conventional bonds in that principal is paid back to the certificate holders over the life of the loan rather than at maturity. The scheduled monthly interest and principal payments relating to mortgages in the pool are "passed through" to investors. In addition, there may be unscheduled principal payments representing prepayments on the underlying mortgages. Although GNMA certificates may offer yields higher than those available from other types of U.S. government securities, GNMA certificates may be less effective than other types of securities as a means of "locking in" attractive long-term rates because of the prepayment feature. For instance, when interest rates decline, the value of a GNMA certificate likely will not rise as much as comparable debt securities due to the prepayment feature. In addition, these prepayments can cause the price of a GNMA certificate originally purchased at a premium to decline in price to its par value, which may result in a loss.

GOVERNMENT PASS-THROUGH SECURITIES are securities issued or guaranteed by a U.S. government agency representing an interest in a pool of mortgage loans. Government and private guarantees do not extend to the securities' value, which is likely to vary inversely with fluctuations in interest rates.

HIGH YIELD SECURITIES are debt securities rated below investment-grade (junk bonds). Junk bonds are highly speculative securities that are usually issued by smaller, less credit worthy and/or highly leveraged (indebted) companies. A corporation may issue a junk bond because of a corporate restructuring or other similar event. Compared with investment-grade bonds, junk bonds carry a greater degree of risk and are less likely to make payments of interest and principal. Market developments and the financial and business condition of the issuer of these securities influence their price and liquidity more than changes in interest rates, when compared to investment-grade debt securities. Insufficient liquidity in the junk bond market may make it more difficult to dispose of junk bonds and may cause the Fund to experience sudden and substantial price declines. A lack of reliable, objective data or market quotations may make it more difficult to value junk bonds accurately.

ILLIQUID INVESTMENTS are investments that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. The Fund may not acquire an illiquid investment if, immediately after the acquisition, the Fund would have invested more than 15 percent of its net assets in illiquid investments that are assets.

INVESTMENT COMPANY SHARES are shares of other mutual funds that may be purchased by the Fund to the extent consistent with applicable law. Generally, the federal securities laws limit the extent to which the Fund can invest in securities of other investment companies, subject to certain exceptions. For example, under Section 12(d)(1)(A) of the 1940 Act, the Fund is prohibited from acquiring the securities of other investment companies if, as a result of such acquisition, (i) the Fund would own more than 3 percent of the total voting stock of the company, (ii) securities issued by any one investment company represented more than 5 percent of the Fund's assets, or (iii) securities (other than treasury stock) issued by all investment companies would represent more than 10 percent of the total assets of the Fund. These investment companies typically incur fees that are separate from those fees incurred directly by the Fund. The Fund's purchase of such investment company securities results in the layering of expenses, such that shareholders of the Fund would indirectly bear a proportionate share of the operating expenses of such investment companies, including advisory fees.

The Fund may rely on Section 12(d)(1)(F) of the 1940 Act, which provides an exemption from Section 12(d)(1) that allows the Fund to invest all of its assets in other registered funds, including ETFs, if, among other conditions, the Fund, together with its affiliates, acquires no more than 3% of the outstanding voting stock of any acquired fund. The Fund may also rely on Rule 12d1-4 under the 1940 Act. Rule 12d1-4 permits the Fund to invest in other investment companies beyond the statutory limits, subject to certain conditions specified in the Rule including, among other conditions, that the Fund and its advisory group will not control (individually or in the aggregate) an acquired fund (e.g., hold more than 25% of the outstanding voting securities of an acquired fund that is a registered open-end management investment company). In addition, the Fund may be able to rely on certain other rules under the 1940 Act to invest in shares of money market funds or other investment companies beyond the statutory limits noted above, but subject to certain conditions.

MORTGAGE-BACKED SECURITIES - Two principal types of mortgage-backed securities are collateralized mortgage obligations ("CMOs") and real estate mortgage investment conduits ("REMICs"). CMOs are securities collateralized by mortgages, mortgage pass-through certificates, mortgage pay-through bonds (bonds representing an interest in a pool of mortgages where the cash flow generated from the mortgage collateral pool is dedicated to bond repayment) and mortgage-backed bonds (general obligations of issuers payable out of the issuers' general funds and additionally secured by a first lien on a pool of single family properties).

Many CMOs are issued with a number of classes or series that have different maturities and are retired in sequence. Investors purchasing CMOs in the shortest maturities receive or are credited with their pro rata portion of the scheduled payments of interest and principal on the underlying mortgages plus all unscheduled prepayments of principal up to a predetermined portion of the total CMO obligation. Until that portion of such CMO obligation is repaid, investors in the longer maturities receive interest only. Accordingly, CMOs in longer maturity series are less likely than other mortgage pass-throughs to be prepaid prior to their stated maturity. Although some of the mortgages underlying CMOs may be supported by various types of insurance, and while some CMOs may be backed by GNMA certificates or other mortgage pass-throughs issued or guaranteed by U.S. government agencies or instrumentalities, CMOs themselves are not generally guaranteed by the U.S. government or any other entity.

REMICs, which were authorized under the Tax Reform Act of 1986, are private entities formed for the purpose of holding a fixed pool of mortgages secured by an interest in real property. REMICs are similar to CMOs in that they issue multiple classes of securities.

MUNICIPAL SECURITIES include, but are not limited to, general obligation notes, tax anticipation notes (notes sold to finance working capital needs of the issuer in anticipation of receiving taxes on a future date), revenue anticipation notes (notes sold to provide needed cash prior to receipt of expected non-tax revenues from a specific source), bond anticipation notes, certificates of indebtedness, demand notes and construction loan notes.

General obligation bonds and revenue bonds are debt instruments issued by states and local governments to raise funds for public works. General obligation bonds are backed by the full faith and credit of the issuing municipality, which means that the municipality commits its full resources to paying bondholders, including general taxation and the ability to raise more funds through credit. The ability to back up bond payments with tax funds is what distinguishes general obligation bonds from revenue bonds, which are repaid solely using the revenue generated by the specific project the bonds are issued to fund.

The principal of and interest on pre-refunded municipal securities are no longer paid from the original revenue source for the securities. Instead, the source of such payments is typically an escrow fund consisting of U.S. government securities. The assets in the escrow fund are derived from the proceeds of refunding bonds issued by the same issuer as the pre-refunded municipal securities. Issuers of municipal securities use this advance refunding technique to obtain more favorable terms with respect to securities that are not yet subject to call or redemption by the issuer. For example, advance refunding enables an issuer to refinance debt at lower market interest rates, restructure debt to improve cash flow or eliminate restrictive covenants in the indenture or other governing instrument for the pre-refunded municipal securities. However, except for a change in the revenue source from which principal and interest payments are made, the pre-refunded municipal securities remain outstanding on their original terms until they mature or are redeemed by the issuer. Pre-refunded municipal securities are often purchased at a price which represents a premium over their face value.

Private activity bonds are issued by or on behalf of states or political subdivisions thereof to finance privately owned or operated facilities for business and manufacturing, housing, sports and pollution control and to finance activities of and facilities for charitable institutions. Private activity bonds are also used to finance public facilities such as airports, mass transit systems, ports, parking and low income housing. The payment of the principal and interest on private activity bonds is dependent solely on the ability of the facility's user to meet its financial obligations and may be secured by a pledge of real and personal property so financed.

Investments in floating rate instruments will normally involve industrial development or revenue bonds, which provide that the rate of interest is set as a specific percentage of a designated base rate (such as the prime rate) at a major commercial bank, and that the Fund can demand payment of the obligation at all times or at stipulated dates on short notice (not to exceed 30 days) at par plus accrued interest. Such obligations are frequently secured by letters of credit or other credit support arrangements provided by banks. The quality of the underlying credit or of the bank, as the case may be, must, in the Adviser's opinion, be equivalent to the three highest ratings categories by S&P or Moody's. The Adviser will monitor the earning power, cash flow and liquidity ratios of the issuers of such instruments and the ability of an issuer of a demand instrument to pay principal and interest on demand. The Fund may purchase other types of tax-exempt instruments as long as they are of a quality equivalent to the ratings stated above. As discussed in the Prospectuses and in the "Investment Limitations" section below, the Fund will invest, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in investment grade municipal bonds the interest from which is exempt from regular federal and Hawaii state income taxes.

The Adviser has the authority to purchase securities at a price that would result in a yield to maturity lower than that generally offered by the seller at the time of purchase when they can simultaneously acquire the right to sell the securities back to the seller, the issuer or a third party (the “writer”) at an agreed-upon price at any time during a stated period or on a certain date. Such a right is generally denoted as a “standby commitment” or a “put.” The purpose of engaging in transactions involving puts is to maintain flexibility and liquidity in order to meet redemptions and remain as fully invested as possible in municipal securities. The right to put the securities depends on the writer’s ability to pay for the securities at the time the put is exercised. The Fund will limit its put transactions to those with institutions that the Adviser believes present minimum credit risks, and the Adviser will use its best efforts to determine initially and thereafter monitor the financial strength of the put providers by evaluating their financial statements and such other information as is available in the marketplace. It may, however, be difficult to monitor the financial strength of the writers where adequate current financial information is not available. In the event that any writer is unable to honor a put for financial reasons, the Fund would be a general creditor (*i.e.*, on a parity with all other unsecured creditors) of the writer. Furthermore, particular provisions of the contract between the Fund and the writer may excuse the writer from repurchasing the securities in certain circumstances (for example, a change in the published rating of the underlying municipal securities or any similar event that has an adverse effect on the issuer’s credit); or a provision in the contract may provide that the put will not be exercised except in certain special cases, for example, to maintain portfolio liquidity. The Fund could, however, sell the underlying portfolio security in the open market or wait until the portfolio security matures, at which time it should realize the full par value of the security.

Municipal securities purchased subject to a put may be sold to third persons at any time, even though the put is outstanding, but the put itself, unless it is an integral part of the security as originally issued, may not be marketable or otherwise assignable. Sale of the securities to third parties or lapse of time with the put unexercised may terminate the right to put the securities. Prior to the expiration of any put option, the Fund could seek to negotiate terms for the extension of such an option. If such a renewal cannot be negotiated on terms satisfactory to the Fund, the Fund could, of course, sell the portfolio security. The maturity of the underlying security will generally be different from that of the put. There will be no limit to the percentage of portfolio securities that the Fund may purchase subject to a put. For the purpose of determining the “maturity” of securities purchased subject to an option to put, and for the purpose of determining the dollar-weighted average maturity of the Fund including such securities, the Fund will consider “maturity” to be the first date on which it has the right to demand payment from the writer of the put although the final maturity of the security is later than such date.

Special Considerations Relating to Hawaii Municipal Securities

As measured by real gross domestic product (GDP), Hawaii's economy rebounded to exceed pre-pandemic (first three quarters of 2019) levels by 1.5 percent during the first three quarters of 2024. While tourism-related sectors (accommodation, food services transportation, retail trade, and recreation) only recovered to 94.5 percent of pre-pandemic levels as of the third quarter of 2024, non-tourism sectors have shown firm growth. With policy uncertainty at the national and international levels, the resilience of Hawaii's economic growth in the next few years will rely on the strong performance of construction, real estate, health care, professional services, and the continued recovery of tourism.

Hawaii's major economic indicators and labor market conditions were mixed in the fourth quarter of 2024. Total nominal annualized personal income in the third quarter of 2024 increased 6.2 percent from the same quarter of 2023. Additionally, Hawaii tax revenue increased, with general fund tax revenues in the fourth quarter of 2024 being 5.3 percent higher when compared to the same period in 2023. Visitor arrivals by air to Hawaii during the fourth quarter of 2024 totaled 2,393,652, an increase of 5.5 percent from the same quarter in 2023. The average daily visitor census increased 2.4 percent in the fourth quarter of 2024 compared to the same quarter of 2023. The indicators of Hawaii's construction industry were largely positive in the fourth quarter of 2024. Construction jobs, state government capital investment project expenditures and private building authorizations increased in the fourth quarter of 2024 compared to the fourth quarter of 2023, while government contracts awarded decreased in the fourth quarter of 2024 compared to the fourth quarter of 2023.

According to the State of Hawaii there are lawsuits and claims, that, if ultimately resolved against the State, could have a material adverse effect on the State's financial condition or as to which the State is unable to predict the magnitude of its potential liability, if any. Such lawsuits and claims include those involving (i) the Office of Hawaiian Affairs and certain lands (the "Ceded Lands") transferred in 1898 by the Republic of Hawaii to the United States and in 1959, upon the State's admission to the Union, by the United States to the State (as to, among other things, whether the State may alienate Ceded Lands and extinguish claims Hawaiians assert to the Ceded Lands); (ii) the Hawaiian Home Lands Trust and the Department of Hawaiian Home Lands (as to certain alleged breaches of trust and fiduciary duties and related individual claims by beneficiaries of the Hawaiian Homes Commission Act of 1920); (iii) the Hawaii Land Use Commission (as to whether the reversion of certain property from an urban classification to an agricultural classification resulted in a regulatory taking under the federal and State constitutions); (iv) the Hawaii Employer-Union Health Benefits Trust Fund (as to the alleged rights of retirees and their dependents to health care benefits equivalent to those provided to active employees and their dependents); and (v) the 2023 Maui wildfires (as to the State's alleged negligent maintenance of grasses and invasive species of plants that allegedly contributed to the spread of the wildfires, and the State's alleged negligent handling of the emergency, including failure to use emergency sirens).

The ability of issuers to pay interest on, and repay principal of, Hawaii municipal securities may be affected by: (1) the general financial condition of the State of Hawaii; (2) amendments to the Hawaii Constitution and related statutes that limit the taxing and spending authority of Hawaii government entities; (3) voter initiatives; (4) civil actions; and (5) a wide variety of Hawaii laws and regulations.

Municipal securities, which are payable only from the revenues derived from a particular facility, may be adversely affected by Hawaii laws or regulations that make it more difficult for the particular facility to generate revenues sufficient to pay such interest and principal including, among others, laws and regulations that limit the amount of fees, rates or other charges that may be imposed for use of the facility or that increase competition among facilities of that type or that limit or otherwise have the effect of reducing the use of such facilities generally, thereby reducing the revenues generated by the particular facility. Municipal securities, the payment of interest and principal on which is insured, in whole or in part, by a Hawaii governmentally created fund, may be adversely affected by Hawaii laws or regulations that restrict the aggregate proceeds available for payment of principal and interest in the event of a default on such municipal securities. Similarly, municipal securities, the payment of interest and principal on which is secured, in whole or in part, by an interest in real property may be adversely affected by Hawaii laws that limit the availability of remedies or the scope of remedies available in the event of a default on such municipal securities. Because of the diverse nature of such laws and regulations and the impossibility of either predicting in which specific municipal securities the Fund will invest from time to time or predicting the nature or extent of future changes in existing laws or regulations or the future enactment or adoption of additional laws or regulations, it is not presently possible to determine the impact of such laws and regulations on the securities in which the Fund may invest and, therefore, on the shares of the Fund.

The Fund will invest in municipal securities in reliance at the time of purchase on an opinion of bond counsel to the issuer that the interest paid on those securities will be excludable from gross income for federal income tax purposes, and the Adviser will not independently verify that opinion. Subsequent to the Fund's acquisition of such a municipal security, however, the security may be determined to pay, or to have paid, taxable income. As a result, the treatment of dividends previously paid or to be paid by the Fund as "exempt-interest dividends" could be adversely affected, subjecting the Fund's shareholders to increased federal income tax liabilities. The Internal Revenue Service ("IRS") also may determine that a municipal bond issued as tax-exempt should in fact be taxable. If the Fund held such a bond, it might have to distribute taxable ordinary income dividends or reclassify previously distributed exempt-interest dividends as taxable income. Distributions of ordinary taxable income (including any net short-term capital gain) will be taxable to shareholders as ordinary income (and not eligible for favorable taxation as "qualified dividend income"), and capital gain dividends will be subject to capital gains taxes. The Fund may not be a suitable investment for individual retirement accounts ("IRAs"), for other tax-exempt or tax-deferred accounts or for investors who are not sensitive to federal income tax consequences of their investments (e.g. investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or IRAs).

General Considerations Relating to State Specific Municipal Securities

With respect to municipal securities issued by a state and its political subdivisions, as well as certain other governmental issuers such as the Commonwealth of Puerto Rico, the Adviser cannot predict what legislation, if any, may be proposed in the state's legislature in regards to the state's personal income tax status of interest on such obligations, or which proposals, if any, might be enacted. Such proposals, if enacted, might materially adversely affect the availability of the state's municipal securities for investment by the Fund and the value of the Fund's investments.

OPTIONS – Put and call options for the various securities and indices are traded on national securities exchanges. As consistent with the Fund's investment objective, options may be used from time to time as the Adviser deems to be appropriate. Options will generally be used for hedging purposes.

A put option gives the purchaser of the option the right to sell, and the writer the obligation to buy, the underlying security at any time during the option period. A call option gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security at any time during the option period. The premium paid to the writer is the consideration for undertaking the obligations under the option contract. The initial purchase (sale) of an option contract is an "opening transaction." In order to close out an option position, the Fund may enter into a "closing transaction" – the sale (purchase) of an option contract on the same security with the same exercise price and expiration date as the option contract originally opened.

Although the Fund may engage in option transactions as hedging transactions, there are risks associated with such investments including the following: (i) the success of a hedging strategy may depend on the ability of the Adviser to predict movements in the prices of the individual securities, fluctuations in markets and movements in interest rates; (ii) there may be an imperfect or no correlation between the changes in market value of the securities held by the Fund and the prices of options; (iii) there may not be a liquid secondary market for options; and (iv) while the Fund will receive a premium when it writes covered call options, it may not participate fully in a rise in the market value of the underlying security. The Fund is permitted to engage in option transactions with respect to securities that are permitted investments and related indices. If the Fund writes call options, it will write only covered call options.

OTHER INVESTMENTS - The Fund is not prohibited from investing in obligations of banks that are clients of SEI Investments Company. However, the purchase of shares of the Trust by such banks or by their customers will not be a consideration in determining which bank obligations the Fund will purchase. The Fund will not purchase obligations of the Adviser.

PRIVATE PASS-THROUGH SECURITIES are mortgage-backed securities issued by a non-governmental entity, such as a trust. While they are generally structured with one or more types of credit enhancement, private pass-through securities typically lack a guarantee by an entity having the credit status of a governmental agency or instrumentality.

REPURCHASE AGREEMENTS are agreements by which a person (*e.g.*, the Fund) obtains a security and simultaneously commits to return the security to the seller (a financial institution deemed to present minimal risk of bankruptcy during the term of the agreement based on guidelines established and periodically reviewed by the Trustees) at an agreed upon price (including principal and interest) on an agreed upon date within a number of days (usually not more than seven) from the date of purchase. The resale price reflects the purchase price plus an agreed upon market rate of interest, which is unrelated to the coupon rate or maturity date of the underlying security. A repurchase agreement involves the obligation of the seller to pay the agreed upon price, which obligation is in effect secured by the value of the underlying security. The Fund may enter into “tri-party” repurchase agreements. In “tri-party” repurchase agreements, an unaffiliated third party custodian maintains accounts to hold collateral for the Fund and its counterparties and, therefore, the Fund may be subject to the credit risk of those custodians.

Repurchase agreements are considered to be loans by the Fund for purposes of its investment limitations. Repurchase agreements entered into by the Fund will provide that the underlying security at all times shall have a value at least equal to 102 percent of the resale price stated in the agreement. Under all repurchase agreements entered into by the Fund, the Fund takes actual or constructive possession of the underlying collateral. However, if the seller defaults, the Fund could realize a loss on the sale of the underlying security to the extent that the proceeds of sale including accrued interest are less than the resale price provided in the agreement including interest. In addition, even though the Bankruptcy Code provides protection for most repurchase agreements, if the seller should be involved in bankruptcy or insolvency proceedings, the Fund may incur delays and costs in selling the underlying security or may suffer a loss of principal and interest if the Fund is treated as an unsecured creditor and required to return the underlying security to the seller’s estate.

RESTRICTED SECURITIES are securities that may not be sold to the public without registration under the Securities Act of 1933, as amended (the “1933 Act”) or an exemption from registration. Permitted investments for the Fund include restricted securities. Restricted securities, including securities eligible for re-sale pursuant to Rule 144A under the 1933 Act, that are determined to be liquid are not subject to the limitation on investments in illiquid investments described above under “Illiquid Investments.” This determination is to be made by the Adviser pursuant to guidelines adopted by the Board. In purchasing such restricted securities, the Adviser intends to purchase securities that are exempt from registration pursuant to Rule 144A under the 1933 Act.

SECURITIES LENDING may be undertaken by the Fund pursuant to agreements requiring that the loans be continuously secured by cash or liquid securities as collateral equal to 100 percent of the market value of the securities lent at all times. Such loans will not be made if, as a result, the aggregate amount of all outstanding securities loans for the Fund exceed one-third of the value of its total assets taken at fair market value. The Fund will continue to receive interest on the securities lent while simultaneously earning interest on the investment of the cash collateral in U.S. government securities. However, the Fund will normally pay lending fees to broker-dealers and related expenses from the interest earned on invested collateral. There may be risks of delay in receiving additional collateral or risks of delay in recovery of the securities or even loss of rights in the collateral should the borrower of the securities fail financially. However, loans are made only to borrowers deemed by the Adviser to be of good standing and when, in the judgment of the Adviser, the consideration that can be earned currently from such securities loans justifies the attendant risk. Any loan may be terminated by either party upon reasonable notice to the other party.

STANDBY COMMITMENTS AND PUTS permit the holder to sell securities subject to the standby commitment or put at a fixed price prior to maturity. Securities subject to a standby commitment or put may be sold at any time at the current market price. However, unless the standby commitment or put was an integral part of the security as originally issued, it may not be marketable or assignable.

STRIPPED MORTGAGE-BACKED SECURITIES (“SMBS”) are usually structured with two classes that receive specified proportions of monthly interest and principal payments from a pool of mortgage securities. One class may receive all of the interest payments, and the other class may receive all of the principal payments. SMBS are extremely sensitive to changes in interest rates because of the impact of prepayment of principal on the underlying mortgage securities.

SUPRANATIONAL AGENCY OBLIGATIONS are debt obligations established through the joint participation of several governments, and include the Asian Development Bank, the Inter-American Development Bank, International Bank for Reconstruction and Development (“World Bank”), African Development Bank, European Economic Community, European Investment Bank and the Nordic Investment Bank.

U.S. GOVERNMENT AGENCY OBLIGATIONS are obligations issued or guaranteed by agencies or instrumentalities of the U.S. government. Agencies of the U.S. government which issue obligations consist of, among others, the Export Import Bank of the United States, Farmers Home Administration, Federal Farm Credit Bank, Federal Housing Administration, GNMA, Maritime Administration, Small Business Administration and The Tennessee Valley Authority. Obligations of instrumentalities of the U.S. government include securities issued by, among others, Federal Home Loan Banks, Federal Home Loan Mortgage Corporation (“Freddie Mac”), Federal Intermediate Credit Banks, Federal Land Banks, Federal National Mortgage Association (“Fannie Mae”) and the United States Postal Service as well as government trust certificates. Some of these securities are supported by the full faith and credit of the U.S. Treasury, others are supported by the right of the issuer to borrow from the U.S. Treasury and others are supported only by the credit of the agency or instrumentality. Guarantees of principal by agencies or instrumentalities of the U.S. government may be a guarantee of payment at the maturity of the obligation so that in the event of a default prior to maturity there might not be a market and thus no means of realizing the value of the obligation prior to maturity.

On September 7, 2008, the U.S. Treasury and the Federal Housing Finance Agency (“FHFA”) announced a federal takeover of Fannie Mae and Freddie Mac, placing the two federal instrumentalities in conservatorship. Under the takeover, the U.S. Treasury agreed to acquire \$1 billion of senior preferred stock of each instrumentality and obtained warrants for the purchase of common stock of each instrumentality (the “Senior Preferred Stock Purchase Agreement” or “Agreement”). Under the Agreement, the U.S. Treasury pledged to provide up to \$200 billion per instrumentality as needed, including the contribution of cash capital to the instrumentalities in the event their liabilities exceed their assets. This was intended to ensure that the instrumentalities maintain a positive net worth and meet their financial obligations, preventing mandatory triggering of receivership. On December 24, 2009, the U.S. Treasury announced that it was amending the Agreement to allow the \$200 billion cap on the U.S. Treasury’s funding commitment to increase as necessary to accommodate any cumulative reduction in net worth through the end of 2012.

On August 17, 2012, the U.S. Treasury announced that it was again amending the Agreement to terminate the requirement that Fannie Mae and Freddie Mac each pay a 10 percent annual dividend. Instead, the companies will transfer to the U.S. Treasury on a quarterly basis all profits earned during a quarter that exceed a capital reserve amount. The capital reserve amount was \$3 billion in 2013, and decreased by \$600 million in each subsequent year through 2017. It is believed that this amendment put Fannie Mae and Freddie Mac in a better position to service their debt because it eliminated the need for the companies to have to borrow from the U.S. Treasury to make fixed dividend payments. As part of the new terms, Fannie Mae and Freddie Mac also will be required to reduce their investment portfolios over time. On December 21, 2017, the U.S. Treasury announced that it was again amending the Agreement to reinstate the \$3 billion capital reserve amount. On September 30, 2019, the U.S. Treasury announced that it was further amending the Agreement, permitting Fannie Mae and Freddie Mac to retain earnings beyond the \$3 billion capital reserves previously allowed through the 2017 amendment.

Under a letter agreement entered into in January 2021, each company is permitted to retain earnings and raise private capital to enable them to meet the minimum capital requirements under the FHFA's Enterprise Regulatory Capital Framework ("ERCF"). The letter agreement also permits each company to develop a plan to exit conservatorship, but may not do so until all litigation involving the conservatorships is resolved and each company has the minimum capital required by FHFA's rules.

Fannie Mae and Freddie Mac are continuing to operate while in conservatorship and each remains liable for all of its obligations, including its guaranty obligations, associated with its mortgage-backed securities. The Agreement is intended to enhance each of Fannie Mae's and Freddie Mac's ability to meet its obligations. The FHFA has indicated that the conservatorship of each company will end when the director of FHFA determines that FHFA's plan to restore the company to a safe and solvent condition has been completed. Under amendments to the ERCF, Fannie Mae and Freddie Mac have published capital disclosures which provide additional information about their capital position and capital requirements on a quarterly basis since the first quarter of 2023 and delivered their first capital plans to FHFA in May 2023. The FHFA finalized amendments to certain provisions of the ERCF in November 2023 that modify various capital requirements for Freddie Mac and Fannie Mae. Should Fannie Mae and Freddie Mac be taken out of conservatorship, it is unclear whether the U.S. Treasury would continue to enforce its rights or perform its obligations under the Agreement. It is also unclear how the capital structure of Fannie Mae and Freddie Mac would be constructed post-conservatorship, and what effects, if any, the privatization of Fannie Mae and Freddie Mac will have on their creditworthiness and guarantees of certain mortgage-backed securities. The ERCF requires Fannie Mae and Freddie Mac, upon exit from conservatorship, to maintain higher levels of capital than prior to conservatorship to satisfy their risk-based capital requirements, leverage ratio requirements and prescribed buffer amounts. Accordingly, should the FHFA take Fannie Mae and Freddie Mac out of conservatorship, there could be an adverse impact on the value of their securities, which could cause the Fund's investments to lose value.

U.S. TREASURY OBLIGATIONS consist of direct obligations of the U.S. Treasury, including Treasury bills, notes and bonds, and separately traded interest and principal component parts of these obligations, including those transferable through the federal book-entry system known as Separate Trading of Registered Interest and Principal of Securities ("STRIPS"). The STRIPS program lets investors hold and trade the individual interest and principal components of eligible Treasury notes and bonds as separate securities. Under the STRIPS program, the principal and interest components are separately issued by the U.S. Treasury at the request of depository financial institutions, which then trade the component parts separately. Receipts are similar to STRIPS, but are issued by banks or broker-dealers and created by depositing U.S. Treasury obligations into a special account at a custodian bank. The Fund's custodian holds the income from the receipts for the benefit of the receipt owners.

VARIABLE AMOUNT MASTER DEMAND NOTES are debt obligations that may or may not be backed by bank letters of credit. These notes permit the investment of fluctuating amounts at varying market rates of interest pursuant to direct arrangements between the Fund, as lender, and the borrower. Such notes provide that the interest rate on the amount outstanding varies on a daily, weekly or monthly basis depending upon a stated short-term interest rate index. Both the lender and the borrower have the right to reduce the amount of outstanding indebtedness at any time. There is no secondary market for the notes. It is not generally contemplated that such instruments will be traded.

VARIABLE AND FLOATING RATE INSTRUMENTS involve certain debt obligations that may carry variable or floating rates of interest, and may involve a conditional or unconditional demand feature. Such instruments bear interest at rates that are not fixed, but which vary with changes in specified market rates or indices. The interest rates on these securities may be reset daily, weekly, quarterly or some other reset period. There is a risk that the current interest rate on such obligations may not accurately reflect existing market interest rates. A demand instrument with a demand notice exceeding seven days may be considered illiquid if there is no secondary market for such security.

WHEN-ISSUED SECURITIES involve the purchase of debt obligations on a when-issued basis, in which case delivery and payment normally take place within 45 days after the date of commitment to purchase. The Fund will only make commitments to purchase obligations on a when-issued basis with the intention of actually acquiring the securities, but may sell them before the settlement date. The when-issued securities are subject to market fluctuation, and no interest accrues on the security to the purchaser during this period. The payment obligation and the interest rate that will be received on the securities are each fixed at the time the purchaser enters into the commitment. Purchasing obligations on a when-issued basis is a form of leveraging and can involve a risk that the yields available in the market when the delivery takes place may actually be higher than those obtained in the transaction itself. In that case there could be an unrealized loss at the time of delivery.

Rule 18f-4 under the 1940 Act permits the Fund to enter into when-issued basis securities notwithstanding the limitation on the issuance of senior securities in Section 18 of the 1940 Act, provided that the Fund intends to physically settle the transaction and the transaction will settle within 35 days of its trade date. If a when-issued basis security entered into by the Fund does not satisfy those requirements, the Fund would need to comply with Rule 18f-4 under the 1940 Act with respect to its when issued transactions, which are considered derivatives transactions under Rule 18f-4 under the 1940 Act.

YANKEE BONDS are U.S. dollar denominated debt obligations issued in the U.S. by foreign banks and corporations.

ZERO COUPON OBLIGATIONS are debt obligations that do not bear any interest, but instead are issued at a deep discount from face value or par. The value of a zero coupon obligation increases over time to reflect the interest accredited. Such obligations will not result in the payment of interest until maturity and will have greater price volatility than similar securities that are issued at face value or par and pay interest periodically.

GENERAL MARKET AND GEOPOLITICAL RISK - Geopolitical events, such as war (including ongoing armed conflict between Ukraine and Russia in Europe and Hamas in the Middle East), terrorism, social unrest, government defaults, government shutdowns, economic uncertainty, sanctions or the threat of sanctions, trade disputes with key trading partners and associated tariffs, natural and environmental disasters, the spread of infectious illness, widespread disease or other public health issues such as pandemics and epidemics (including those caused by COVID-19), and/or systemic market dislocations (including due to events outside of such countries or regions) have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally. Whether or not the Fund invests in securities of issuers located in countries impacted by such events, these and other events could negatively affect the value and liquidity of the Fund's investments due to the interconnected nature of the global economy and capital markets, which in turn could negatively impact the Fund's performance and cause losses on your investment in the Fund.

SPECIAL RISKS OF CYBER ATTACKS - As with any entity that conducts business through electronic means in the modern marketplace, the Fund, and its service providers, may be susceptible to operational and information security risks resulting from cyber attacks. Cyber attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized monitoring, release, misuse, loss, destruction or corruption of confidential information, unauthorized access to relevant systems, compromises to networks or devices that the Fund and its service providers use to service the Fund's operations, ransomware, operational disruption or failures in the physical infrastructure or operating systems that support the Fund and its service providers, or various other forms of cyber security breaches. Cyber attacks affecting the Fund, the Adviser, the Fund's distributor, custodian, or any other of the Fund's intermediaries or service providers may adversely impact the Fund and its shareholders, potentially resulting in, among other things, financial losses or the inability of Fund shareholders to transact business. For instance, cyber attacks may interfere with the processing of shareholder transactions, impact the Fund's ability to calculate its net asset value, cause the release of private shareholder information or confidential business information, impede trading, subject the Fund to regulatory fines or financial losses and/or cause reputational damage. The Fund may also incur additional costs for cyber security risk management purposes designed to mitigate or prevent the risk of cyber attacks. Such costs may be ongoing because threats of cyber attacks are constantly evolving as cyber attackers become more sophisticated and their techniques become more complex. Similar types of cyber security risks are also present for issuers of securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund's investments in such companies to lose value. There can be no assurance that the Fund, the Fund's service providers, or the issuers of the securities in which the Fund invests will not suffer losses relating to cyber attacks or other information security breaches in the future.

INVESTMENT LIMITATIONS

Fundamental Policies

The investment objective of the Fund, and the following investment limitations are fundamental policies of the Fund and cannot be changed without the consent of the holders of a majority of the Fund's outstanding shares. The term "majority of the outstanding shares" means the vote of (i) 67% or more of the Fund's shares present at a meeting, if more than 50% of the outstanding shares of the Fund are present or represented by proxy, or (ii) more than 50% of the Fund's outstanding shares, whichever is less.

The Fund may not:

1. Invest more than 25% of its assets in securities of non-governmental entities that are in the same industry.
2. Invest in companies for the purpose of exercising control.
3. Borrow money except for temporary or emergency purposes and then only in an amount not exceeding one-third of the value of its total assets. To the extent that such borrowing exceeds 5% of the value of the Fund's assets, asset coverage of at least 300% is required. The Fund will not purchase securities while its borrowings exceed 5% of its total assets.
4. Make loans, except that (a) the Fund may purchase or hold debt instruments in accordance with its investment objective and policies; (b) the Fund may enter into repurchase agreements; and (c) the Fund may engage in securities lending.
5. Pledge, mortgage or hypothecate assets except to secure borrowings permitted by (3) above in aggregate amounts not to exceed 33% of total assets taken at current value at the time of the incurrence of such loan.
6. Purchase or sell real estate, real estate limited partnership interests, commodities or commodities contracts. However, the Fund may invest in companies which invest in real estate, and in commodities contracts.
7. Make short sales of securities or purchase securities on margin, except that the Fund may obtain short-term credits as necessary for the clearance of security transactions.
8. Act as an underwriter of securities of other issuers except as it may be deemed an underwriter in selling a portfolio security.
9. Purchase securities of other investment companies, except as permitted by the 1940 Act and the rules and regulations thereunder.
10. Issue senior securities (as defined in the 1940 Act) except in connection with permitted borrowings as described above or as permitted by rule, regulation or order of the SEC.
11. Invest in interests in oil, gas or other mineral exploration or development programs and oil, gas or mineral leases.

In addition,

12. The Fund shall invest at least 80% of its net assets (plus any borrowings for investment purposes), under normal circumstances, in investment grade municipal bonds the interest from which is exempt from regular federal and Hawaii state income taxes.

The following descriptions of certain provisions of the 1940 Act may assist investors in understanding the above policies and restrictions:

Concentration. The 1940 Act requires that every investment company have a fundamental investment policy regarding concentration. The SEC has defined concentration as investing 25% or more of an investment company's total assets in any particular industry or group of industries, with certain exceptions. For purposes of the Fund's concentration policy, the Fund may classify and re-classify companies in a particular industry and define and re-define industries in any reasonable manner, consistent with SEC and SEC staff guidance.

Borrowing. The 1940 Act presently allows an investment company to borrow from any bank in an amount up to 33 1/3% of its total assets (including the amount borrowed) and to borrow for temporary purposes in an amount not exceeding 5% of the value of its total assets.

Lending. Under the 1940 Act, an investment company may only make loans if expressly permitted by its investment policies.

Senior Securities. Senior securities may include any obligation or instrument issued by a fund evidencing indebtedness. The 1940 Act generally prohibits funds from issuing senior securities, although the 1940 Act does provide allowances for certain borrowings. In addition, Rule 18f-4 under the 1940 Act permits a fund to enter into derivatives transactions, notwithstanding the prohibitions and restrictions on the issuance of senior securities under the 1940 Act, provided that the fund complies with the conditions of the Rule.

Real Estate and Commodities. The 1940 Act does not directly restrict an investment company's ability to invest in real estate or commodities, but does require that every investment company have a fundamental investment policy governing such investments.

Underwriting. Under the 1940 Act, underwriting securities involves an investment company purchasing securities directly from an issuer for the purpose of selling (distributing) them or participating in any such activity either directly or indirectly. Under the 1940 Act, a diversified fund may not make any commitment as underwriter, if immediately thereafter the amount of its outstanding underwriting commitments, plus the value of its investments in securities of issuers (other than investment companies) of which it owns more than 10% of the outstanding voting securities, exceeds 25% of the value of its total assets.

Except with respect to Fund policies concerning borrowing, if a percentage restriction is adhered to at the time of an investment, a later increase or decrease in percentage resulting from changes in values or assets will not constitute a violation of such restriction. With respect to the limitation on borrowing, in the event that a subsequent change in net assets or other circumstances cause the Fund to exceed its limitation, the Fund will take steps to bring the aggregate amount of borrowing back within the limitations within three days thereafter (not including Sundays and holidays).

TEMPORARY DEFENSIVE POSITIONS

During unusual economic or market conditions, or for temporary defensive purposes, the Fund may invest up to 100% of its assets in money market instruments and other cash equivalents that would not ordinarily be consistent with its investment objective. If the Fund invests in this manner, it may not achieve its investment objective. The Fund will only make temporary defensive investments if the portfolio managers believe that the risk of loss outweighs the opportunity for capital appreciation or current income.

THE ADVISER

General. The Adviser, Bishop Street Capital Management, is a Hawaii limited liability company established in 1999. The Adviser is a direct subsidiary of First Hawaiian Bank and an indirect subsidiary of First Hawaiian, Inc., First Hawaiian Bank's parent company. The Adviser makes the investment decisions for the assets of the Fund and continuously reviews, supervises and administers the Fund's investment program, subject to the oversight of, and policies established by the Board. The principal business address of the Adviser is 999 Bishop Street, 25th Floor, Honolulu, Hawaii 96813. As of March 31, 2025, the Adviser had approximately \$180.9 million in assets under management.

Advisory Agreement with the Trust. The Trust and First Hawaiian Bank entered into an advisory agreement dated March 31, 1999 (the "Advisory Agreement"). First Hawaiian, Inc., then known as BancWest Corporation, created an investment advisory subsidiary entitled Bishop Street Capital Management. On November 9, 1999, the Board approved Bishop Street Capital Management as the new adviser to the Trust. This change became effective on February 22, 2000. The Advisory Agreement between First Hawaiian Bank and the Trust, and the obligations contained in that Agreement were assumed by Bishop Street Capital Management. At the time of this change, Bishop Street Capital Management employed the same investment personnel that managed the Trust under First Hawaiian Bank, and the management and control of the Adviser, as well as the services provided, remained the same. On March 27, 2025, Bishop Street Capital Management reorganized from a Hawaii corporation to a limited liability company organized under the state of Hawaii.

The Advisory Agreement provides that if, for any fiscal year, the ratio of expenses of the Fund (including amounts payable to the Adviser but excluding interest, taxes, brokerage, litigation, and other extraordinary expenses) exceeds limitations established by any state, the Adviser will bear the amount of such excess. The Adviser will not be required to bear expenses of the Trust to an extent that would result in the Fund's inability to qualify as a RIC under provisions of the Code.

After the initial two-year term, the continuance of the Advisory Agreement must be specifically approved at least annually: (i) by the vote of the Trustees or by a vote of the majority of the outstanding voting securities of the Fund; and (ii) by the vote of a majority of the Trustees who are not parties to the Advisory Agreement or "interested persons" of any party thereto, cast in person at a meeting called for the purpose of voting on such approval. The Advisory Agreement will terminate automatically in the event of its assignment, and is terminable at any time without penalty by the Board or by a majority of the outstanding voting securities of the Fund, on not less than 30 days' nor more than 60 days' written notice to the Adviser, or by the Adviser on 90 days' written notice to the Trust.

Advisory Fees Paid to the Adviser. For its services under the Advisory Agreement, the Adviser is entitled to a fee, which is calculated daily and paid monthly at an annual rate of 0.35% of the daily average net assets of the Fund. Advisory fees are calculated and charged to each class of shares based on net assets.

The Adviser has contractually agreed to reduce fees and reimburse expenses to the extent necessary to keep total annual Fund operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles, and extraordinary expenses (collectively, “excluded expenses”)) from exceeding the average daily net assets of the Fund through April 30, 2026 as follows:

<i>Hawaii Municipal Bond Fund (Class I Shares)</i>	0.55%
<i>Hawaii Municipal Bond Fund (Class A Shares)</i>	0.80%

In addition, the Board may permit the Adviser to receive from the Fund the difference between the Fund’s total annual Fund operating expenses (not including excluded expenses) and the Fund’s contractual expense limitation to recoup all or a portion of its prior fee reductions or expense reimbursements made during the rolling three-year period preceding the date of the recoupment if at any point total annual Fund operating expenses (not including excluded expenses) are below the expense cap (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of recoupment.

The Adviser intends to continue these fee reductions and expense reimbursements until further notice, but may discontinue them at any time.

For Fiscal Years Ended December 31:

Contractual Advisory Fees			Advisory Fees Waived by Adviser			Total Advisory Fees Paid		
2022	2023	2024	2022	2023	2024	2022	2023	2024
\$432,358	\$424,560	\$732,368	\$262,743	\$302,120	\$263,711	\$169,615	\$122,440	\$468,657

The Fund’s Administrator and Distributor also may, from time to time, waive a portion of their fees. These fee waivers are voluntary and may be discontinued at any time. With these fee waivers/reimbursements, the Fund’s actual total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principals and extraordinary expenses) were as follows:

<i>Hawaii Municipal Bond Fund (Class I Shares)</i>	0.55%
<i>Hawaii Municipal Bond Fund (Class A Shares)</i>	0.80%

THE PORTFOLIO MANAGERS

This section includes information about the Fund’s portfolio managers including information about other accounts they manage, the dollar range of Fund shares they own and how they are compensated.

Compensation. The Adviser compensates each portfolio manager based on his or her performance with respect to management of the Fund. Each portfolio manager’s compensation package consists of a combination of an annual base salary, a discretionary bonus, deferred compensation through First Hawaiian Bank’s 401(k) and Profit Sharing Plan, and in the case of selected employees, an additional discretionary bonus award under the company’s Long-Term Incentive Plan (“LTIP”). The LTIP bonus award is based upon First Hawaiian Bank’s financial performance in accordance with pre-determined criteria. The discretionary bonus award is directly related to First Hawaiian Bank’s profitability; however, bonus amounts paid are purely discretionary.

Fund Shares Owned by Portfolio Managers

The following table shows the dollar amount range of each portfolio manager's "beneficial ownership" of shares of the Fund as of the end of the most recently completed fiscal year. Dollar amount ranges disclosed are established by the SEC. "Beneficial ownership" is determined in accordance with Rule 16a-1(a)(2) under the Securities Exchange Act of 1934, as amended ("1934 Act").

Portfolio Manager	Dollar Range of Fund Shares Owned ¹
Stephanie Nomura	\$1 - \$10,000
Andrew Sutton	None

¹ Valuation date is December 31, 2024.

Management of Other Accounts

In addition to the Fund, the portfolio managers may also be responsible for the day-to-day management of certain other accounts as indicated by the following table. None of these accounts are subject to a performance-based advisory fee. All information is as of the most recently completed fiscal year end.

Name	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets	Number of Accounts	Total Assets	Number of Accounts	Total Assets (Millions)
Stephanie Nomura	0	\$0	0	\$0	78	\$222.5
Andrew Sutton	0	\$0	0	\$0	54	\$313.8

Conflicts of Interest. The portfolio managers' management of other accounts included in the preceding table may give rise to potential conflicts of interest in connection with their management of the Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio managers could favor one account over another. Another potential conflict could include the portfolio managers' knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated. Pursuant to such policies and procedures, in the event transactions are not able to be filled completely or in the event of a limited quantity of a security, the Adviser will allocate the available securities among clients on a pro-rata basis among those clients participating in the order or transaction.

THE ADMINISTRATOR

General. SEI Investments Global Funds Services (the "Administrator"), a Delaware statutory trust, has its principal business offices at One Freedom Valley Drive, Oaks, Pennsylvania 19456. SEI Investments Management Corporation ("SIMC"), a wholly-owned subsidiary of SEI Investments Company ("SEI Investments"), is the owner of all beneficial interest in the Administrator. SEI Investments and its subsidiaries and affiliates, including the Administrator and the Trust's principal underwriter, SEI Investments Distribution Co., are leading providers of fund evaluation services, trust accounting systems, and brokerage and information services to financial institutions, institutional investors, and money managers. The Administrator and its affiliates also serve as administrator or sub-administrator to other mutual funds.

Administration Agreement with the Trust. The Trust and the Administrator have entered into an amended and restated administration agreement dated November 13, 2018 (the “Administration Agreement”). Under the Administration Agreement, the Administrator provides the Trust with administrative services, including fund accounting, regulatory reporting, necessary office space, equipment, personnel and facilities.

The Administration Agreement provides that the Administrator shall not be liable for any error of judgment or mistake of law or for any loss suffered by the Trust in connection with the matters to which the Administration Agreement relates, except a loss resulting from willful misfeasance, bad faith or negligence on the part of the Administrator in the performance of its duties or from reckless disregard by it of its duties and obligations thereunder.

Administration Fees Paid to the Administrator. For its services under the Administration Agreement, the Administrator is paid a fee, which varies based on the average daily net assets of the Fund, subject to certain minimums. For the fiscal years ended December 31, 2022, 2023 and 2024, the Fund paid the following amounts for these services:

For Fiscal Years Ended December 31:

Contractual Administrative Fees			Administrative Fees Voluntarily Waived by Administrator			Total Administrative Fees Paid		
2022	2023	2024	2022	2023	2024	2022	2023	2024
\$243,561	\$239,106	\$414,996	\$160,590	\$157,694	\$272,022	\$82,971	\$81,412	\$142,974

THE DISTRIBUTOR

The Trust and SEI Investments Distribution Co. (the “Distributor”), One Freedom Valley Drive, Oaks, Pennsylvania 19456, are parties to an amended and restated distribution agreement dated February 21, 2007, as amended August 30, 2010 and November 13, 2018 (the “Distribution Agreement”), whereby the Distributor acts as a principal underwriter for the continuous offering of the Fund’s shares on a “best efforts” basis. The Distributor and the Administrator are both wholly-owned subsidiaries of SEI Investments.

The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the majority of the outstanding voting securities of the Trust and (ii) by the vote of a majority of the Trustees who are not parties to the Distribution Agreement or “interested persons” of the Trust and have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement will terminate automatically in the event of its assignment (as such term is defined in the 1940 Act), and is terminable at any time without penalty by the Board or by a majority of the outstanding voting securities of the Trust, or by the Distributor, upon not less than 60 days’ written notice to the other party.

Dealer Reallowances. Class A Shares of the Fund are offered to the public at the net asset value per share plus any applicable front-end sales charges (the “offering price”). The Distributor collects the sales charges and pays a portion of the sales charges to dealers in accordance with the reallowance schedule below. The difference between the offering price and the applicable sales charges is the amount of the purchaser’s investment in the Fund. For the fiscal years ended December 31, 2022, 2023 and 2024, the Distributor retained sales charges of \$3,183, \$3,179 and \$0, respectively, for Class A Shares of the Fund.

With respect to the Fund, depending upon the amount of an investment in Class A Shares, the front-end sales charge reallowed to dealers will vary as follows:

Investment Amount:	Dealer Reallowance as a Percentage of Offering Price
Less than \$50,000	3.00%
\$50,000 but less than \$100,000	2.75%
\$100,000 but less than \$250,000	2.25%
\$250,000 but less than \$500,000	1.25%
\$500,000 but less than \$1,000,000	1.00%
\$1,000,000 and over	0.00%

PAYMENTS TO FINANCIAL INTERMEDIARIES

Shareholder Servicing Plan. The Fund has adopted a shareholder servicing plan under which a shareholder servicing fee of up to 0.25% of the average daily net assets of Class I Shares and Class A Shares of the Fund will be paid to financial intermediaries. Under the plan, financial intermediaries may perform, or may compensate other financial intermediaries for performing, certain shareholder and/or administrative services or similar non-distribution services, including: (i) maintaining shareholder accounts; (ii) arranging for bank wires; (iii) responding to shareholder inquiries relating to the services performed by the financial intermediaries; (iv) responding to inquiries from shareholders concerning their investment in the Fund; (v) assisting shareholders in changing dividend options, account designations and addresses; (vi) providing information periodically to shareholders showing their position in the Fund; (vii) forwarding shareholder communications from the Fund such as proxies, shareholder reports, annual reports, and dividend and capital gain distribution and tax notices to shareholders; (viii) processing purchase, exchange and redemption requests from shareholders and placing orders with the Fund or its service providers; (ix) providing sub-accounting services; (x) processing dividend and capital gain payments from the Fund on behalf of shareholders; (xi) preparing tax reports; and (xii) providing such other similar non-distribution services as the Fund may reasonably request to the extent that the financial intermediary is permitted to do so under applicable laws or regulations.

First Hawaiian Bank, an affiliate of the Adviser, may receive payments for shareholder services performed for the Fund’s shareholders.

Distribution Plan. The Trust has adopted a Distribution Plan with respect to the Class A Shares of the Fund (the “Plan”) in accordance with the provisions of Rule 12b-1 under the 1940 Act, which regulates circumstances under which an investment company may directly or indirectly bear expenses relating to the distribution of its shares. Continuance of the Plan must be approved annually by a majority of the Trustees and by a majority of the Trustees who are not interested persons (as defined in the 1940 Act) of the Trust and have no direct or indirect financial interest in the Plan or in any agreements related to the Plan (“Qualified Trustees”). The Plan requires that quarterly written reports of amounts spent under the Plan and the purposes of such expenditures be furnished to and reviewed by the Trustees. The Plan may not be amended to increase materially the amount that may be spent thereunder without approval by a majority of the outstanding shares of the Fund. All material amendments of the Plan will require approval by a majority of the Trustees and of the Qualified Trustees.

The Plan provides a method of paying for distribution and shareholder services, which may help the Fund grow or maintain asset levels to provide operational efficiencies and economies of scale, provided by the Distributor or other financial intermediaries that enter into agreements with the Distributor. The Fund may make payments to financial intermediaries, such as banks, savings and loan associations, insurance companies, investment counselors, broker-dealers, mutual fund “supermarkets” and the Distributor’s affiliates and subsidiaries, as compensation for services, reimbursement of expenses incurred in connection with distribution assistance or provision of shareholder services. The Distributor may, at its discretion, retain a portion of such payments to compensate itself for distribution services and distribution related expenses such as the costs of preparation, printing, mailing or otherwise disseminating sales literature, advertising, and prospectuses (other than those furnished to current shareholders of the Fund), promotional and incentive programs, and such other marketing expenses that the Distributor may incur.

Under the Plan, the Distributor or financial intermediaries may receive up to 0.25% of the average daily net assets of the Class A Shares of the Fund as compensation for distribution and shareholder services. The Plan is characterized as a compensation plan since the distribution fee will be paid to the Distributor without regard to the distribution or shareholder service expenses incurred by the Distributor or the amount of payments made to financial intermediaries. First Hawaiian Bank, an affiliate of the Adviser, may receive such payments for distribution and shareholder services. The Trust intends to operate the Plan in accordance with its terms and with Financial Industry Regulatory Authority (“FINRA”) rules concerning sales charges.

Payments Under the Distribution Plan. For the fiscal years ended December 31, 2022, 2023 and 2024, the Fund’s Class A Shares incurred the following expenses under the Plan:

Year	Total (As a % of Net Assets)	Total (\$ Amount)	Amount Paid To 3rd Parties by the Distributor for Distribution Related Services (\$ Amount)
2022	0.25%	\$35,295	\$35,295
2023	0.25%	\$51,834	\$51,834
2024	0.25%	\$305,381	\$305,381

Although banking laws and regulations prohibit banks from distributing shares of open end investment companies such as the Trust, according to an opinion issued to the staff of the SEC by the Office of the Comptroller of the Currency, financial institutions are not prohibited from acting in other capacities for investment companies, such as providing shareholder services. Should future legislative, judicial or administrative action prohibit or restrict the activities of financial institutions in connection with providing shareholder services, the Trust may be required to alter materially or discontinue its arrangements with such financial institutions.

Payments by the Adviser. The Adviser, and/or its affiliates, in their discretion, may make payments from their own resources and not from Fund assets to affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service providers or their respective affiliates, as incentives to help market and promote the Fund and/or in recognition of their distribution, marketing, administrative services, and/or processing support.

These additional payments may be made to financial intermediaries that sell Fund shares or provide services to the Fund, the Distributor or shareholders of the Fund through the financial intermediary's retail distribution channel and/or fund supermarkets. Payments may also be made through the financial intermediary's retirement, qualified tuition, fee-based advisory, wrap fee bank trust, or insurance (e.g., individual or group annuity) programs. These payments may include, but are not limited to, placing the Fund in a financial intermediary's retail distribution channel or on a preferred or recommended fund list; providing business or shareholder financial planning assistance; educating financial intermediary personnel about the Fund; providing access to sales and management representatives of the financial intermediary; promoting sales of Fund shares; providing marketing and educational support; maintaining share balances and/or for sub-accounting, administrative or shareholder transaction processing services. A financial intermediary may perform the services itself or may arrange with a third party to perform the services.

The Adviser, and/or its affiliates may also make payments from their own resources to financial intermediaries for costs associated with the purchase of products or services used in connection with sales and marketing, participation in and/or presentation at conferences or seminars, sales or training programs, client and investor entertainment and other sponsored events. The costs and expenses associated with these efforts may include travel, lodging, sponsorship at educational seminars and conferences, entertainment and meals to the extent permitted by law.

Revenue sharing payments may be negotiated based on a variety of factors, including the level of sales, the amount of Fund assets attributable to investments in the Fund by financial intermediaries' customers, a flat fee or other measures as determined from time to time by the Adviser, and/or its affiliates. A significant purpose of these payments is to increase the sales of Fund shares, which in turn may benefit the Adviser through increased fees as Fund assets grow.

Investors should understand that some financial intermediaries may also charge their clients fees in connection with purchases of shares or the provision of shareholder services.

THE TRANSFER AGENT

SS&C Global Investor & Distribution Solutions, Inc. (the "Transfer Agent"), 1055 Broadway, Kansas City, Missouri 64105, serves as the Fund's transfer agent and dividend disbursing agent under a transfer agency agreement with the Trust.

THE CUSTODIAN

U.S. Bank National Association, 800 Nicollet Mall, Minneapolis, Minnesota 55402-4302 (the "Custodian"), serves as the Fund's custodian, and is responsible for maintaining the custody of the Fund's assets.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

PricewaterhouseCoopers LLP, Two Commerce Square, 2001 Market Street, Suite 1800, Philadelphia, Pennsylvania 19103, serves as the Fund's independent registered public accounting firm, and is responsible for auditing the Fund's financial statements.

LEGAL COUNSEL

Morgan, Lewis & Bockius LLP, 2222 Market Street, Philadelphia, Pennsylvania 19103 serves as legal counsel to the Trust.

SECURITIES LENDING

The Fund did not engage in securities lending activities during the fiscal year ended December 31, 2024.

CODES OF ETHICS

The Board, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act. In addition, the Adviser, the Administrator, and the Distributor each has adopted a Code of Ethics pursuant to Rule 17j-1. These Codes of Ethics apply to the personal investing activities of Trustees, officers and certain employees ("access persons"). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to invest in securities, including securities that may be purchased or held by the Fund, but are required to report their personal securities transactions for monitoring purposes. In addition, certain access persons are required to obtain approval before investing in initial public offerings or private placements. Copies of these Codes of Ethics are on file with the SEC and are available to the public.

TRUSTEES AND OFFICERS OF THE TRUST

Board Responsibilities. The management and affairs of the Trust and its series, including the Fund described in this SAI, are overseen by the Trustees. The Board has approved contracts, as described above, under which certain companies provide essential management services to the Trust.

Like most mutual funds, the day-to-day business of the Trust, including the management of risk, is performed by third party service providers, such as the Adviser, Distributor and Administrator. The Trustees are responsible for overseeing the Trust's service providers and, thus, have oversight responsibility with respect to risk management performed by those service providers. Risk management seeks to identify and address risks, i.e., events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the Fund. The Fund and its service providers employ a variety of processes, procedures and controls to identify various possible events or circumstances, to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust's business (e.g., the Adviser is responsible for the day-to-day management of the Fund's portfolio investments) and, consequently, for managing the risks associated with that business. The Board has emphasized to the Fund's service providers the importance of maintaining vigorous risk management.

The Trustees' role in risk oversight begins before the inception of a fund, at which time certain of the fund's service providers present the Board with information concerning the investment objectives, strategies and risks of the fund as well as proposed investment limitations for the fund. Additionally, the Adviser provides the Board with an overview of, among other things, its investment philosophy, brokerage practices and compliance infrastructure. Thereafter, the Board continues its oversight function as various personnel, including the Trust's Chief Compliance Officer, as well as personnel of the Adviser, and other service providers, such as the fund's independent accountants, make periodic reports to the Audit Committee or to the Board with respect to various aspects of risk management. The Board and the Audit Committee oversee efforts by management and service providers to manage risks to which the funds may be exposed.

The Board is responsible for overseeing the nature, extent and quality of the services provided to the Fund by the Adviser and receives information about those services at its regular meetings. In addition, on an annual basis, in connection with its consideration of whether to renew the advisory agreement with the Adviser, the Board meets with the Adviser to review such services. Among other things, the Board regularly considers the Adviser's adherence to the Fund's investment restrictions and compliance with various Fund policies and procedures and with applicable securities regulations. The Board also reviews information about the Fund's investments, including, for example, reports on the Adviser's use of derivatives in managing the Fund, if any, as well as reports on the Fund's investments in other investment companies, if any.

The Trust's Chief Compliance Officer reports regularly to the Board to review and discuss compliance issues and Fund and Adviser risk assessments. At least annually, the Trust's Chief Compliance Officer provides the Board with a report reviewing the adequacy and effectiveness of the Trust's policies and procedures and those of its service providers, including the Adviser. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; any material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and any material compliance matters since the date of the last report.

The Board receives reports from the Fund's service providers regarding operational risks and risks related to the valuation and liquidity of portfolio securities. The Adviser makes regular reports to the Board concerning investments for which market quotations are not readily available. Annually, the independent registered public accounting firm reviews with the Audit Committee its audit of the Fund's financial statements, focusing on major areas of risk encountered by the Fund and noting any significant deficiencies or material weaknesses in the Fund's internal controls. Additionally, in connection with its oversight function, the Board oversees Fund management's implementation of disclosure controls and procedures, which are designed to ensure that information required to be disclosed by the Trust in its periodic reports with the SEC are recorded, processed, summarized, and reported within the required time periods. The Board also oversees the Trust's internal controls over financial reporting, which comprise policies and procedures designed to provide reasonable assurance regarding the reliability of the Trust's financial reporting and the preparation of the Trust's financial statements.

From their review of these reports and discussions with the Adviser, Chief Compliance Officer, independent registered public accounting firm and other service providers, the Board and the Audit Committee learn in detail about the material risks of the Fund, thereby facilitating a dialogue about how management and service providers identify and mitigate those risks.

The Board recognizes that not all risks that may affect the Fund can be identified and/or quantified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve the Fund's goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, reports received by the Trustees as to risk management matters are typically summaries of the relevant information. Most of the Fund's investment management and business affairs are carried out by or through the Adviser and other service providers, each of which has an independent interest in risk management but whose policies and the methods by which one or more risk management functions are carried out may differ from the Fund's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board's ability to monitor and manage risk, as a practical matter, is subject to limitations.

Members of the Board. There are seven members of the Board, five of whom are not "interested persons" of the Trust, as that term is defined in the 1940 Act ("Independent Trustees"). Robert Neshier, an interested person of the Trust, serves as Chairman of the Board. Joseph T. Grause, Jr., an Independent Trustee, serves as the lead independent Trustee. The Trust has determined its leadership structure is appropriate given the specific characteristics and circumstances of the Trust. The Trust made this determination in consideration of, among other things, the fact that the Independent Trustees constitute more than two-thirds of the Board, the fact that the chairperson of each Committee of the Board is an independent Trustee, the amount of assets under management in the Trust, and the number of Funds (and classes of shares) overseen by the Board. The Board also believes that its leadership structure facilitates the orderly and efficient flow of information to the Independent Trustees from Fund management.

The Board has two standing committees: the Audit Committee and the Governance Committee. The Audit Committee and Governance Committee are chaired by an Independent Trustee and composed of all of the Independent Trustees.

In his role as Lead Independent Trustee, Mr. Grause, among other things: (i) presides over Board meetings in the absence of the Chairman of the Board; (ii) presides over executive sessions of the Independent Trustees; (iii) along with the Chairman of the Board, oversees the development of agendas for Board meetings; (iv) facilitates communication between the Independent Trustees and management, and among the Independent Trustees; (v) serves as a key point person for dealings between the Independent Trustees and management; and (vi) has such other responsibilities as the Board or Independent Trustees determine from time to time.

Set forth below are the names, years of birth, position with the Trust and length of time served, and the principal occupations and other directorships held during at least the last five years of each of the persons currently serving as a Trustee. There is no stated term of office for the Trustees. Nevertheless, an independent Trustee must retire from the Board as of the end of the calendar year in which such independent Trustee first attains the age of seventy-five years; provided, however, that, an independent Trustee may continue to serve for one or more additional one calendar year terms after attaining the age of seventy-five years (each calendar year a "Waiver Term") if, and only if, prior to the beginning of such Waiver Term: (1) the Governance Committee (a) meets to review the performance of the independent Trustee; (b) finds that the continued service of such independent Trustee is in the best interests of the Trust; and (c) unanimously approves excepting the independent Trustee from the general retirement policy set out above; and (2) a majority of the Trustees approves excepting the independent Trustee from the general retirement policy set out above. Unless otherwise noted, the business address of each Trustee is SEI Investments Company, One Freedom Valley Drive, Oaks, Pennsylvania 19456.

Name and Year of Birth	Position with Trust and Length of Time Served	Principal Occupations in the Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee	Other Directorships Held in the Past 5 Years

Director of International Consulting and Chief Executive Officer of Morningstar Associates Europe Limited, Morningstar, Inc., 2007 to 2010. Country Manager – Morningstar UK Limited, Morningstar, Inc., 2005 to 2007.	1	Current Directorships: Trustee of The Advisors' Inner Circle Fund, The Advisors' Inner Circle Fund II, Frost Family of Funds, and Catholic Responsible Investments Funds. Former Directorships: Trustee of The KP Funds to 2022.
Robert Mulhall (Born: 1958)	Trustee (since 2019)	Partner, Ernst & Young LLP, from 1998 to 2018.	1	Current Directorships: Trustee of The Advisors' Inner Circle Fund, The Advisors' Inner Circle Fund II, Frost Family of Funds and Catholic Responsible Investments Funds. Former Directorships: Trustee of Villanova University Alumni Board of Directors to 2018. Trustee of The KP Funds to 2022.

Bruce Specia (Born: 1956)	Trustee (since 2011)	Global Head of Asset Allocation, Manulife Asset Management (subsidiary of Manulife Financial), 2010 to 2011. Executive Vice President – Investment Management Services, John Hancock Financial Services (subsidiary of Manulife Financial), 2003 to 2010.	1	Current Directorships: Trustee of The Advisors' Inner Circle Fund, The Advisors' Inner Circle Fund II, Frost Family of Funds and Catholic Responsible Investments Funds. Former Directorships: Trustee of The KP Funds to 2022. Director of Stone Harbor Investments Funds (8 Portfolios), Stone Harbor Emerging Markets Income Fund (closed-end fund) and Stone Harbor Emerging Markets Total Income Fund (closed-end fund) to 2022.
Monica Walker (Born: 1958)	Trustee (since 2022)	Retired. Private Investor since 2017. Co-Founder (1991-2017), Chairman and Chief Executive Officer (2009 to 2017) and Chief Investment Officer – Equity (2007 to 2017) of Holland Capital Management, LLC (Chicago).	1	Current Directorships: Trustee of The Advisors' Inner Circle Fund, The Advisors' Inner Circle Fund II and Catholic Responsible Investments Funds.

¹ Trustees who are deemed to be “interested persons” (as the term is defined in the 1940 Act) of the Trust are referred to as “Interested Trustees.” Messrs. Nesher and Klauder are deemed Interested Trustees by virtue of their affiliation with the Distributor and/or its affiliates.

Individual Trustee Qualifications. The Trust has concluded that each of the Trustees should serve on the Board because of his or her ability to review and understand information about the Fund provided to them by management, to identify and request other information they may deem relevant to the performance of their duties, to question management and other service providers regarding material factors bearing on the management and administration of the Fund, and to exercise their business judgment in a manner that serves the best interests of the Fund's shareholders. The Trust has concluded that each of the Trustees should serve as a Trustee based on his or her own experience, qualifications, attributes and skills as described below.

The Trust has concluded that Mr. Nesher should serve as Trustee because of the experience he has gained in his various roles with SEI Investments, which he joined in 1974, his knowledge of and experience in the financial services industry, and the experience he has gained serving as a trustee of the Trust since 1998.

The Trust has concluded that Mr. Klauder should serve as Trustee because of the experience he has gained in his various roles with SEI Investments, which he joined in 2004, his knowledge of and experience in the financial services industry, and the experience he gained serving as a partner of a large law firm.

The Trust has concluded that Ms. Gaffney should serve as Trustee because of the experience she gained serving as a vice president and portfolio manager for a large asset management company, her experience in and knowledge of the asset management industry, and the experience she has gained serving in board and leadership positions in a variety of nonprofit and civic organizations.

The Trust has concluded that Mr. Grause should serve as Trustee because of the knowledge and experience he gained in a variety of leadership roles with different financial institutions, his knowledge of the mutual fund and investment management industries, and his past experience as an interested trustee and chair of the investment committee for a multi-managed investment company, and the experience he has gained serving as a trustee of the Trust since 2011.

The Trust has concluded that Mr. Mulhall should serve as Trustee because of the knowledge and experience he gained in a variety of leadership roles with an audit firm and various financial services firms, his experience in and knowledge of the financial services industry, and his experience serving in a variety of leadership capacities for non-profit organizations.

The Trust has concluded that Mr. Specia should serve as Trustee because of the knowledge and experience he gained serving as president of a mutual fund company and portfolio manager for a \$95 billion complex of asset allocation funds, and his over 25 years of experience working in a management capacity with mutual fund boards, and the experience he has gained serving as a trustee of the Trust since 2011.

The Trust has concluded that Ms. Walker should serve as Trustee because of the experience she gained in a variety of leadership roles with an asset management company that she co-founded, her experience in and knowledge of the financial services industry, and the experience she has gained in various other corporate accounting, finance and investment roles.

In its periodic assessment of the effectiveness of the Board, the Board considers the complementary individual skills and experience of the individual Trustees primarily in the broader context of the Board's overall composition so that the Board, as a body, possesses the appropriate (and appropriately diverse) skills and experience to oversee the business of the Fund.

Board Committees. The Board has established the following standing committees:

- **Audit Committee.** The Board has a standing Audit Committee that is composed of each of the Independent Trustees. The Audit Committee operates under a written charter approved by the Board. The principal responsibilities of the Audit Committee include: (i) recommending which firm to engage as the Fund's independent registered public accounting firm and whether to terminate this relationship; (ii) reviewing the independent registered public accounting firm's compensation, the proposed scope and terms of its engagement, and the firm's independence; (iii) pre-approving audit and non-audit services provided by the Fund's independent registered public accounting firm to the Trust and certain other affiliated entities; (iv) serving as a channel of communication between the independent registered public accounting firm and the Trustees; (v) reviewing the results of each external audit, including any qualifications in the independent registered public accounting firm's opinion, any related management letter, management's responses to recommendations made by the independent registered public accounting firm in connection with the audit, reports submitted to the Committee by the internal auditing department of the Administrator that are material to the Trust as a whole, if any, and management's responses to any such reports; (vi) reviewing the Fund's audited financial statements and considering any significant disputes between the Trust's management and the independent registered public accounting firm that arose in connection with the preparation of those financial statements; (vii) considering, in consultation with the independent registered public accounting firm and the Trust's senior internal accounting executive, if any, the independent registered public accounting firms' report on the adequacy of the Trust's internal financial controls; (viii) reviewing, in consultation with the Fund's independent registered public accounting firm, major changes regarding auditing and accounting principles and practices to be followed when preparing the Fund's financial statements; and (ix) other audit related matters. Mes. Gaffney and Walker and Messrs. Grause, Mulhall and Specia currently serve as members of the Audit Committee. Mr. Mulhall serves as the Chairman of the Audit Committee. The Audit Committee meets periodically, as necessary, and met four (4) times during the most recently completed fiscal year.

- Governance Committee. The Board has a standing Governance Committee (formerly the Nominating Committee) that is composed of each of the Independent Trustees. The Governance Committee operates under a written charter approved by the Board. The principal responsibilities of the Governance Committee include: (i) considering and reviewing Board governance and compensation issues; (ii) conducting a self-assessment of the Board's operations; (iii) selecting and nominating all persons to serve as Independent Trustees; and (iv) reviewing shareholder recommendations for nominations to fill vacancies on the Board if such recommendations are submitted in writing and addressed to the Committee at the Trust's office. Mses. Gaffney and Walker and Messrs. Grause, Mulhall and Specca currently serve as members of the Governance Committee. Mr. Specca serves as the Chairman of the Governance Committee. The Governance Committee meets periodically, as necessary, and met one (1) time during the most recently completed fiscal year.

Fund Shares Owned by Board Members. The following table shows the dollar amount range of each Trustee's "beneficial ownership" of shares of the Fund as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. "Beneficial ownership" is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. The Trustees and officers of the Trust own less than 1% of the outstanding shares of the Trust.

Name of Trustee	Dollar Range of Fund Shares (Fund) ¹	Aggregate Dollar Range of Shares (All Funds in the Family of Investment Companies) ^{1,2}
<u>Interested Trustees</u>		
Robert A. Neshier	None	None
N. Jeffrey Klauder	None	None
<u>Independent Trustees</u>		
Kathleen Gaffney	None	None
Joseph T. Grause, Jr.	None	None
Robert Mulhall	None	None
Bruce Specca	None	None
Monica Walker	None	None

¹ Valuation date is December 31, 2024.

² The Fund is the only fund in the family of investment companies.

Board Compensation. The Trust paid the following fees to the Trustees during the most recently completed fiscal year:

Name	Aggregate Compensation from the Trust	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from the Trust and Fund Complex ¹
<u>Interested Trustees</u>				
Robert A. Nesher	\$0	N/A	N/A	\$0 for service on one (1) board
N. Jeffrey Klauder	\$0	N/A	N/A	\$0 for service on one (1) board
<u>Independent Trustees</u>				
Kathleen Gaffney	\$6,426	N/A	N/A	\$6,426 for service on one (1) board
Joseph T. Grause, Jr.	\$7,089	N/A	N/A	\$7,089 for service on one (1) board
Robert Mulhall	\$7,255	N/A	N/A	\$7,255 for service on one (1) board
Bruce Specia	\$7,089	N/A	N/A	\$7,089 for service on one (1) board
Monica Walker	\$6,426	N/A	N/A	\$6,426 for service on one (1) board

¹ All funds in the Fund Complex are series of the Trust.

Trust Officers. Set forth below are the names, years of birth, position with the Trust and length of time served, and the principal occupations for the last five years of each of the persons currently serving as executive officers of the Trust. There is no stated term of office for the officers of the Trust. Unless otherwise noted, the business address of each officer is SEI Investments Company, One Freedom Valley Drive, Oaks, Pennsylvania 19456. The Chief Compliance Officer is the only officer who receives compensation from the Trust for his services.

Name and Year of Birth	Position with Trust and Length of Time Served	Principal Occupations in Past 5 Years
Michael Beattie (Born: 1965)	President (since 2011)	Managing Director, SEI Investments, since 2021. Director of Client Service, SEI Investments, from 2004 to 2021.
James Bernstein (Born: 1962)	Vice President and Assistant Secretary (since 2017)	Attorney, SEI Investments, since 2017. Prior Positions: Self-employed consultant, 2017. Associate General Counsel & Vice President, Nationwide Funds Group and Nationwide Mutual Insurance Company, from 2002 to 2016. Assistant General Counsel & Vice President, Market Street Funds and Provident Mutual Insurance Company, from 1999 to 2002.

John Bourgeois (Born: 1973)	Assistant Treasurer (since 2017)	Fund Accounting Manager, SEI Investments, since 2000.
Eric C. Griffith (Born: 1969)	Vice President and Assistant Secretary (since 2019)	Counsel at SEI Investments since 2019. Vice President and Assistant General Counsel, JPMorgan Chase & Co., from 2012 to 2018.
Matthew M. Maher (Born: 1975)	Vice President (since 2018) Secretary (since 2020)	Counsel at SEI Investments since 2018. Attorney, Blank Rome LLP, from 2015 to 2018. Assistant Counsel & Vice President, Bank of New York Mellon, from 2013 to 2014. Attorney, Dilworth Paxson LLP, from 2006 to 2013.
Andrew Metzger (Born: 1980)	Treasurer, Controller and Chief Financial Officer (since 2021)	Director of Fund Accounting, SEI Investments, since 2020. Senior Director, Embark, from 2019 to 2020. Senior Manager, PricewaterhouseCoopers LLP, from 2002 to 2019.
Robert Morrow (Born: 1968)	Vice President (since 2017)	Account Manager, SEI Investments, since 2007.
Stephen F. Panner (Born: 1970)	Chief Compliance Officer (since 2022)	Chief Compliance Officer of SEI Asset Allocation Trust, SEI Daily Income Trust, SEI Institutional Investments Trust, SEI Institutional International Trust, SEI Institutional Managed Trust, SEI Tax Exempt Trust, Adviser Managed Trust, New Covenant Funds, SEI Catholic Values Trust, SEI Exchange Traded Funds, SEI Structured Credit Fund LP, The Advisors' Inner Circle Fund, The Advisors' Inner Circle Fund II, The Advisors' Inner Circle Fund III, Bishop Street Funds, Frost Family of Funds, Gallery Trust, Wilshire Private Assets Master Fund, Wilshire Private Assets Fund, and Catholic Responsible Investments Funds since September 2022. Chief Compliance Officer of SEI Alternative Income Fund since May 2023. Chief Compliance Officer of Symmetry Panoramic Trust since December 2023. Fund Compliance Officer of SEI Investments Company from February 2011 to September 2022. Fund Accounting Director and CFO and Controller for the SEI Funds from July 2005 to February 2011.
Alexander F. Smith (Born: 1977)	Vice President and Assistant Secretary (since 2020)	Counsel at SEI Investments since 2020. Associate Counsel & Manager, Vanguard, 2012 to 2020. Attorney, Stradley Ronon Stevens & Young, LLP, 2008 to 2012.
Bridget E. Sudall (Born: 1980)	Anti-Money Laundering Compliance Officer and Privacy Officer (from 2015 – May 2022; from November 2022 – June 2023; and since April 2024)	Chief Compliance Officer of SEI Operations since 2018.

Certain officers of the Trust also serve as officers of one or more funds for which SEI Investments or its affiliates act as investment manager, administrator or distributor.

REPORTING

The Trust issues unaudited financial information semi-annually and audited financial statements annually. The Trust furnishes proxy statements and other shareholder reports to shareholders of record.

PURCHASING AND REDEEMING SHARES

Purchases and redemptions may be made through the Transfer Agent on any day the New York Stock Exchange ("NYSE") is open for business. Shares of the Fund are offered and redeemed on a continuous basis. Currently, the NYSE is closed for business when the following holidays are observed: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving and Christmas. Purchases and redemptions will be made in full and fractional shares, calculated to three decimal places.

It is currently the Trust's policy to pay for redemptions in cash. The Trust retains the right, however, to alter this policy so as to provide for redemptions in whole or in part by a distribution in kind of securities held by the Fund in lieu of cash. Shareholders may incur brokerage charges on the sale of any such securities so received in payment of redemptions. A shareholder will at all times be entitled to aggregate cash redemptions from the Fund of up to the lesser of \$250,000 or 1% of the Trust's net assets during any 90-day period.

The Trust reserves the right to suspend the right of redemption and/or to postpone the date of payment upon redemption for more than seven days during times when the NYSE is closed, other than during customary weekends or holidays, for any period on which trading on the NYSE is restricted (as determined by the SEC by rule or regulation), or during the existence of an emergency (as determined by the SEC by rule or regulation) as a result of which disposal or valuation of the Fund's securities is not reasonably practicable, or for such other periods as the SEC has by order permitted. The Trust also reserves the right to suspend sales of shares of the Fund for any period during which the NYSE, the Adviser, the Administrator, the Transfer Agent and/or the Custodian are not open for business.

PRICING/DETERMINATION OF NET ASSET VALUE

General Policy. The Fund adheres to Section 2(a)(41), and Rules 2a-4 and 2a-5 thereunder, of the 1940 Act with respect to the valuation of portfolio securities. In general, securities for which market quotations are readily available are valued at current market value, and all other securities are valued at fair value by the Adviser in good faith, and subject to the oversight of the Board. In complying with the 1940 Act, the Trust relies on guidance provided by the SEC and by the SEC staff in various interpretive letters and other guidance.

Equity Securities. Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 p.m. Eastern Time if such exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. If such prices are not available or determined to not represent the fair value of the security as of the Fund's pricing time, the security will be valued at fair value as determined in good faith by the Adviser, subject to Board oversight.

Money Market Securities and Other Debt Securities. If available, money market securities and other debt securities are priced based upon valuations provided by recognized independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Such methodologies generally consider such factors as security prices, yields, maturities, call features, ratings and developments relating to specific securities in arriving at valuations. Money market securities and other debt securities with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value. If such prices are not available or determined to not represent the fair value of the security as of the Fund's pricing time, the security will be valued at fair value as determined in good faith by the Adviser, subject to Board oversight.

Foreign Securities. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates. Exchange rates are provided daily by recognized independent pricing agents.

Derivatives and Other Complex Securities. Exchange traded options on securities and indices purchased by the Fund generally are valued at their last trade price or, if there is no last trade price, the last bid price. Exchange traded options on securities and indices written by the Fund generally are valued at their last trade price or, if there is no last trade price, the last asked price. In the case of options traded in the over-the-counter market, if the over-the-counter option is also an exchange traded option, the Fund will follow the rules regarding the valuation of exchange traded options. If the over-the-counter option is not also an exchange traded option, the security will be valued at fair value as determined in good faith by the Adviser, subject to Board oversight.

Futures and swaps cleared through a central clearing house ("centrally cleared swaps") are valued at the settlement price established each day by the board of the exchange on which they are traded. The daily settlement prices for financial futures are provided by an independent source. On days when there is excessive volume or market volatility, or the future or centrally cleared swap does not end trading by the time the Fund calculates net asset value, the settlement price may not be available at the time at which the Fund calculates its net asset value. On such days, the best available price (which is typically the last sales price) may be used to value the Fund's futures or centrally cleared swaps position.

Foreign currency forward contracts are valued at the current day's interpolated foreign exchange rate, as calculated using the current day's spot rate, and the thirty, sixty, ninety and one-hundred eighty day forward rates provided by an independent source.

If available, non-centrally cleared swaps, collateralized debt obligations, collateralized loan obligations and bank loans are priced based on valuations provided by an independent third party pricing agent. If a price is not available from an independent third party pricing agent, the security will be valued at fair value as determined in good faith by the Adviser, subject to Board oversight.

Use of Third-Party Independent Pricing Services. Pursuant to contracts with the Administrator, prices for most securities held by the Fund with readily available market quotations are provided by third-party independent pricing agents. The valuations for these securities are reviewed by the Administrator. In accordance with the Adviser's Valuation Procedures, the Adviser may also use third-party independent pricing agents (reviewed and approved by the Adviser) to fair value certain securities without readily available market quotations (or where market quotations are unreliable).

Fair Value Procedures. Securities for which market prices are not “readily available” or which cannot be valued using the methodologies described above are valued in accordance with Fair Value Procedures established by the Adviser and implemented through the Adviser's Valuation Committee. In establishing a fair value for an investment, the Adviser will use valuation methodologies established by the Adviser and may consider inputs and methodologies provided by, among others, third-party independent pricing agents, independent broker dealers and/or the Adviser's own personnel (including investment personnel).

Some of the more common reasons that may necessitate a security being valued using Fair Value Procedures include: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; trading of the security is subject to local government-imposed restrictions; or a significant event with respect to a security has occurred after the close of the market or exchange on which the security principally trades and before the time the Fund calculates net asset value. When a security is valued in accordance with the Fair Value Procedures, the Adviser's Valuation Committee will determine the value after taking into consideration relevant information reasonably available to the Committee.

TAXES

The following is only a summary of certain additional U.S. federal income tax considerations generally affecting the Fund and its shareholders that is intended to supplement the discussion contained in the Prospectuses. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectuses is not intended as a substitute for careful tax planning. The summary is very general, except as expressly discussed below, and does not address investors subject to special rules, such as non-U.S. investors and investors who hold shares through an IRA, 401(k) or other tax-advantaged account. Shareholders are urged to consult their tax advisors with specific reference to their own tax situations, including their state, local and foreign tax liabilities.

The following general discussion of certain federal income tax consequences is based on the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

You are urged to consult your own tax advisor regarding your investment in the Fund.

Qualification as a Regulated Investment Company. The Fund has elected and intends to qualify to be treated as a RIC under Subchapter M of the Code. By following such a policy, the Fund expects to eliminate or reduce to a nominal amount the federal taxes to which it may be subject. A Fund that qualifies as a RIC will generally not be subject to federal income taxes on the net investment income and net realized capital gains that the Fund timely distributes to its shareholders. The Board reserves the right not to maintain the qualification of the Fund as a RIC if it determines such course of action to be beneficial to shareholders.

In order to qualify as a RIC under the Code, the Fund must distribute annually to its shareholders at least 90% of its net investment income (which includes dividends, taxable interest, and the excess of net short-term capital gains over net long-term capital losses, less operating expenses) and at least 90% of its net tax exempt interest income, for each tax year, if any (the "Distribution Requirement") and also must meet certain additional requirements. Among these requirements are the following: (i) at least 90% of the Fund's gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities, or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities, or currencies, and net income derived from an interest in a qualified publicly traded partnership (the "Qualifying Income Test"); and (ii) at the close of each quarter of the Fund's taxable year: (A) at least 50% of the value of the Fund's total assets must be represented by cash and cash items, U.S. government securities, securities of other RICs and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater than 5% of the value of the Fund's total assets and that does not represent more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (B) not more than 25% of the value of the Fund's total assets is invested, including through corporations in which the Fund owns a 20% or more voting stock interest, in the securities (other than U.S. government securities or the securities of other RICs) of any one issuer or the securities (other than the securities of another RIC) of two or more issuers that the Fund controls and which are engaged in the same or similar trades or businesses or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (the "Asset Test").

Although the Fund intends to distribute substantially all of its net investment income and may distribute its capital gains for any taxable year, the Fund will be subject to federal income taxation to the extent any such income or gains are not distributed.

If the Fund fails to satisfy the Qualifying Income Test or Asset Test in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain de minimis failures of the diversification requirements where the Fund corrects the failure within a specified period. If the Fund fails to maintain qualification as a RIC for a tax year, and the relief provisions are not available, the Fund will be subject to federal income tax at the regular corporate rate (currently 21%) without any deduction for distributions to shareholders. In such case, its shareholders would be taxed as if they received ordinary dividends to the extent of the Fund's current and accumulated earnings and profits, although corporate shareholders could be eligible for the dividends received deduction (subject to certain limitations) and individuals may be able to benefit from the lower tax rates available to qualified dividend income. In addition, the Fund could be required to recognize unrealized gains, pay substantial taxes and interest, and make substantial distributions before requalifying as a RIC. The Board reserves the right not to maintain the qualification of the Fund as a RIC if it determines such course of action to be beneficial to shareholders.

The Fund may elect to treat part or all of any "qualified late year loss" as if it had been incurred in the succeeding taxable year in determining the Fund's taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such "qualified late year loss" as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A "qualified late year loss" generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as "post-October losses") and certain other late-year losses.

The treatment of capital loss carryovers for the Fund is similar to the rules that apply to capital loss carryovers of individuals, which provide that such losses are carried over indefinitely. If the Fund has a “net capital loss” (that is, capital losses in excess of capital gains), the excess of the Fund’s net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund’s next taxable year, and the excess (if any) of the Fund’s net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund’s next taxable year. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code.

Federal Excise Tax. Notwithstanding the Distribution Requirement described above, which generally requires the Fund to distribute at least 90% of its annual investment company taxable income and the excess of its exempt interest income (but does not require any minimum distribution of net capital gain), the Fund will be subject to a nondeductible 4% federal excise tax to the extent it fails to distribute by the end of the calendar year at least 98% of its ordinary income for that year and 98.2% of its capital gain net income (the excess of short- and long-term capital gains over short- and long-term capital losses) for the one-year period ending on October 31 of such year (including any retained amount from the prior calendar year on which the Fund paid no federal income tax). The Fund intends to make sufficient distributions to avoid liability for federal excise tax but can make no assurances that such tax will be completely eliminated. For example, the Fund may receive delayed or corrected tax reporting statements from its investments that cause the Fund to accrue additional income and gains after the Fund has already made its excise tax distributions for the year. In such a situation, the Fund may incur an excise tax liability resulting from such delayed receipt of such tax information statements. In addition, the Fund may in certain circumstances be required to liquidate Fund investments in order to make sufficient distributions to avoid federal excise tax liability at a time when the Adviser might not otherwise have chosen to do so, and liquidation of investments in such circumstances may affect the ability of the Fund to satisfy the requirement for qualification as a RIC.

Federal Income Tax Treatment of Dividends and Distributions. The Fund's ordinary income generally consists of interest on investments and dividend income. This income, plus net short-term capital gains, if any, less expenses incurred in the operation of the Fund, constitutes the Fund's net investment income from which dividends may be paid to you. Distributions of net investment income (other than distributions of exempt-interest dividends) and net short-term capital gains are taxable to shareholders at ordinary income tax rates or at the lower capital gains rates that apply to individuals receiving qualified dividend income, whether you take them in cash or in additional shares.

Distributions by the Fund are currently eligible for the reduced maximum tax rate to individuals of 20% (lower rates apply to individuals in lower tax brackets) to the extent that the Fund receives qualified dividend income on the securities it holds and the Fund reports the distributions as qualified dividend income. Qualified dividend income is, in general, dividend income from taxable domestic corporations and certain foreign corporations (e.g., foreign corporations incorporated in a possession of the United States or in certain countries with a comprehensive tax treaty with the United States, or the stock of which is readily tradable on an established securities market in the United States). A dividend will not be treated as qualified dividend income to the extent that: (i) the shareholder has not held the shares on which the dividend was paid for more than 60 days during the 121-day period that begins on the date that is 60 days before the date on which the shares become “ex-dividend” (which is the day on which declared distributions (dividends or capital gains) are deducted from the Fund’s assets before it calculates the net asset value) with respect to such dividend, (ii) the Fund has not satisfied similar holding period requirements with respect to the securities it holds that paid the dividends distributed to the shareholder, (iii) the shareholder is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to substantially similar or related property, or (iv) the shareholder elects to treat such dividend as investment income under section 163(d)(4)(B) of the Code. Therefore, if you lend your shares in the Fund, such as pursuant to a securities lending arrangement, you may lose the ability to treat dividends (paid while the shares are held by the borrower) as qualified dividend income. It is currently not anticipated that the Fund will make distributions eligible for the reduced tax rates applicable to qualified dividend income.

Distributions by the Fund of its net short-term capital gains will be taxable as ordinary income. Capital gain distributions consisting of the Fund's net capital gains will be taxable as long-term capital gains for individual shareholders, currently set at a maximum rate of 20%, regardless of the length of time they have held their shares. Distributions from capital gains are generally made after applying any available capital loss carryforwards.

In the case of corporate shareholders of the Fund, the Fund's distributions (other than capital gain distributions) generally qualify for the dividends received deduction to the extent such distributions are so reported and do not exceed the gross amount of qualifying dividends received by the Fund for the year. Generally, and subject to certain limitations (including certain holding period limitations), a dividend will be treated as a qualifying dividend if it has been received from a domestic corporation. It is currently not anticipated that the Fund will make distributions eligible for the dividends received deduction for corporate shareholders.

To the extent that the Fund makes a distribution of income received by the Fund in lieu of dividends (a "substitute payment") with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If the Fund's distributions exceed its taxable income and capital gains realized during a taxable year, all or a portion of the distributions made in the same taxable year may be recharacterized as a return of capital to the shareholders. A return of capital distribution will generally not be taxable, but will reduce each shareholder's cost basis in the Fund and result in a higher reported capital gain or lower reported capital loss when those shares on which the distribution was received are sold. Capital gains distributions are not eligible for the dividends received deduction for corporate shareholders.

A dividend or distribution received shortly after the purchase of shares reduces the net asset value of the shares by the amount of the dividend or distribution and, although in effect a return of capital, will be taxable to the shareholder. If the net asset value of shares were reduced below the shareholder's cost by dividends or distributions representing gains realized on sales of securities, such dividends or distributions would be a return of investment though taxable to the shareholder in the same manner as other dividends or distributions.

Distributions of any ordinary income and net realized capital gains will be taxable as described above, whether received in shares or in cash. Shareholders who choose to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

Distributions of capital gain and distributions of net investment income received shortly after the purchase of shares reduce the net asset value of the Fund's shares by the amount of the distribution. If you purchase shares just prior to a distribution, the purchase price would reflect the amount of the upcoming distribution. In this case, you are taxed on the distribution even though, as an economic matter, the distribution represents a return of your investment. This is known as "buying a dividend" and should be avoided by taxable investors.

A RIC that receives business interest income may pass through its net business interest income for purposes of the tax rules applicable to the interest expense limitations under Section 163(j) of the Code. A RIC's total "Section 163(j) Interest Dividend" for a tax year is limited to the excess of the RIC's business interest income over the sum of its business interest expense and its other deductions properly allocable to its business interest income. A RIC may, in its discretion, designate all or a portion of ordinary dividends as Section 163(j) Interest Dividends, which would allow the recipient shareholder to treat the designated portion of such dividends as interest income for purposes of determining such shareholder's interest expense deduction limitation under Section 163(j). This can potentially increase the amount of a shareholder's interest expense deductible under Section 163(j). In general, to be eligible to treat a Section 163(j) Interest Dividend as interest income, you must have held your shares in the Fund for more than 180 days during the 361-day period beginning on the date that is 180 days before the date on which the share becomes ex-dividend with respect to such dividend. Section 163(j) Interest Dividends, if so designated by the Fund, will be reported to your financial intermediary or otherwise in accordance with the requirements specified by the IRS.

Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record on a date in such a month and paid in the following January are taxable as if received by shareholders on December 31 of the calendar year in which declared. Under this rule, therefore, a shareholder may be taxed in one year on dividends or distributions actually received in January of the following year.

The Fund (or its administrative agent) will inform you of the amount of your ordinary income dividends, qualified dividend income, exempt-interest dividends, and capital gain distributions, if any, and will advise you of their tax status for federal income tax purposes shortly after the close of each calendar year. If you have not held Fund shares for a full year, the Fund may report and distribute to you, as ordinary income, qualified dividend income or capital gain, a percentage of income that is not equal to the actual amount of such income earned during the period of your investment in the Fund.

Sales and Redemptions. Sales and redemptions of Fund shares may be taxable transactions for federal and state income tax purposes. Assuming a shareholder holds shares as a capital asset, any gain or loss recognized on a sale or redemption of shares of the Fund by a shareholder will generally be treated as a long-term capital gain or loss if the shares have been held for more than twelve months and otherwise will be treated as a short-term capital gain or loss. However, if shares on which a shareholder has received a net capital gain distribution are subsequently sold or redeemed and such shares have been held for six months or less, any loss recognized will be treated as a long-term capital loss to the extent of the net capital gain distribution. In addition, any loss recognized by a shareholder upon the sale or redemption of shares of the Fund held for six months or less will be disallowed to the extent of any exempt-interest dividends received by the shareholder with respect to such shares. The loss realized on a sale or other disposition of shares will be disallowed to the extent a shareholder repurchases (or enters into a contract to or option to repurchase) shares within a period of 61 days (beginning 30 days before and ending 30 days after the disposition of the shares). This loss disallowance rule will apply to shares received through the reinvestment of dividends during the 61-day period.

The Fund (or its administrative agent) must report to the IRS and furnish to its shareholders cost basis information for purchases of Fund shares. In addition to the requirement to report the gross proceeds from the sale of Fund shares, the Fund (or its administrative agent) is also required to report the cost basis information for such shares and indicate whether these shares had a short-term or long-term holding period. For each sale of Fund shares, the Fund will permit shareholders to elect from among several IRS-accepted cost basis methods, including the average cost basis method. In the absence of an election, the Fund will use the average cost basis method as its default cost basis method. The cost basis method elected by Fund shareholders (or the cost basis method applied by default) for each sale of Fund shares may not be changed after the settlement date of each such sale of Fund shares. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about cost basis reporting. Shareholders also should carefully review the cost basis information provided to them by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly) are subject to a 3.8% tax on their “net investment income,” including interest, dividends, and capital gains (including capital gains realized on the sale of shares of the Fund). Exempt-interest dividends do not constitute “net investment income” for this purpose.

Tax Treatment of Complex Securities. The Fund may invest in complex securities and these investments may be subject to numerous special and complex rules that will determine the character and timing of recognition of the income received in connection therewith by the Fund. These rules could affect the Fund’s ability to qualify as a RIC, affect whether gains and losses recognized by the Fund are treated as ordinary income or capital gain, accelerate the recognition of income to the Fund and/or defer the Fund’s ability to recognize losses, and, in limited cases, subject the Fund to federal income tax on income from certain of its foreign securities. In turn, these rules may affect the amount, timing or character of the income distributed to you by the Fund and may require the Fund to sell securities to mitigate the effect of these rules and prevent disqualification of the Fund as a RIC at a time when the Adviser might not otherwise have chosen to do so.

The Fund is required for federal income tax purposes to mark-to-market and recognize as income for each taxable year its net unrealized gains and losses on certain futures and options contracts subject to section 1256 of the Code ("Section 1256 Contracts") as of the end of the year as well as those actually realized during the year. Gain or loss from Section 1256 Contracts on broad-based indexes required to be marked to market will be 60% long-term and 40% short-term capital gain or loss. Application of this rule may alter the timing and character of distributions to shareholders. The Fund may be required to defer the recognition of losses on Section 1256 Contracts to the extent of any unrecognized gains on offsetting positions held by the Fund. These provisions may also require the Fund to mark-to-market certain types of positions in its portfolio (i.e., treat them as if they were closed out), which may cause the Fund to recognize income without receiving cash with which to make distributions in amounts necessary to satisfy the Distribution Requirement and for avoiding the excise tax discussed above. Accordingly, in order to avoid certain income and excise taxes, the Fund may be required to liquidate its investments at a time when the Adviser might not otherwise have chosen to do so.

With respect to investments in STRIPS, treasury receipts, and other zero coupon securities which are sold at original issue discount and thus do not make periodic cash interest payments, the Fund will be required to include as part of its current income the imputed interest on such obligations even though the Fund has not received any interest payments on such obligations during that period. Because the Fund intends to distribute all of its net investment income to its shareholders, the Fund may have to sell Fund securities to distribute such imputed income which may occur at a time when the Adviser would not have chosen to sell such securities and which may result in taxable gain or loss.

Any market discount recognized on a bond is taxable as ordinary income. A market discount bond is a bond acquired in the secondary market at a price below redemption value or adjusted issue price if issued with original issue discount. Absent an election by the Fund to include the market discount in income as it accrues, gain on the Fund’s disposition of such an obligation will be treated as ordinary income rather than capital gain to the extent of the accrued market discount.

Foreign Taxes. Dividends and interest received by the Fund may be subject to income, withholding or other taxes imposed by foreign countries and U.S. possessions that would reduce the yield on the Fund's stock or securities. Tax conventions between certain countries and the U.S. may reduce or eliminate these taxes. Foreign countries generally do not impose taxes on capital gains with respect to investments by foreign investors.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, IRAs, salary deferral arrangements, 401(k)s, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income ("UBTI"). Tax-exempt entities are not permitted to offset losses from one trade or business against the income or gain of another trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, the Fund generally serves to block UBTI from being realized by its tax-exempt shareholders. However, notwithstanding the foregoing, the tax-exempt shareholder could realize UBTI by virtue of an investment in the Fund where, for example: (i) the Fund invests in residual interests of REMICs; (ii) the Fund invests in a REIT that is a taxable mortgage pool ("TMP") or that has a subsidiary that is TMP or that invests in the residual interest of a REMIC; or (iii) shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisor. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult their tax advisors regarding these issues.

The Fund's shares held in a tax-qualified retirement account will generally not be subject to federal taxation on income and capital gains distributions from the Fund until a shareholder begins receiving payments from their retirement account.

Backup Withholding. The Fund will be required in certain cases to withhold at a rate of 24% and remit to the U.S. Treasury such withheld amount on any distribution payable to any shareholder who: (i) has provided the Fund either an incorrect tax identification number or no number at all; (ii) is subject to backup withholding by the IRS for failure to properly report payments of interest or dividends; (iii) has failed to certify to the Fund that such shareholder is not subject to backup withholding; or (iv) has failed to certify to the Fund that the shareholder is a U.S. person (including a resident alien). Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

Non-U.S. Investors. Any non-U.S. investors in the Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Foreign shareholders (i.e., nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to U.S. withholding tax at a 30% rate (or a lower treaty rate) on distributions derived from taxable ordinary income. The Fund may, under certain circumstances, report all or a portion of a dividend as an "interest-related dividend" or a "short-term capital gain dividend," which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of shares of the Fund generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Under legislation generally known as “FATCA” (the Foreign Account Tax Compliance Act), the Fund is required to withhold 30% of certain ordinary dividends it pays to shareholders that fail to meet prescribed information reporting or certification requirements. In general, no such withholding will be required with respect to a U.S. person or non-U.S. person that timely provides the certifications required by the Fund or its agent on a valid IRS Form W-9 or applicable series of IRS Form W-8, respectively. Shareholders potentially subject to withholding include foreign financial institutions (“FFIs”), such as non-U.S. investment funds, and non-financial foreign entities (“NFFEs”). To avoid withholding under FATCA, an FFI generally must enter into an information sharing agreement with the IRS in which it agrees to report certain identifying information (including name, address, and taxpayer identification number) with respect to its U.S. account holders (which, in the case of an entity shareholder, may include its direct and indirect U.S. owners), and an NFFE generally must identify and provide other required information to the Fund or other withholding agent regarding its U.S. owners, if any. Such non-U.S. shareholders also may fall into certain exempt, excepted or deemed compliant categories as established by regulations and other guidance. A non-U.S. shareholder resident or doing business in a country that has entered into an intergovernmental agreement with the U.S. to implement FATCA will be exempt from FATCA withholding provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

A non-U.S. entity that invests in the Fund will need to provide the Fund with documentation properly certifying the entity's status under FATCA in order to avoid FATCA withholding. Non-U.S. investors in the Fund should consult their tax advisors in this regard.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, generally, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of RICs are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

State Taxes. Depending upon state and local law, distributions by the Fund to its shareholders and the ownership of such shares may be subject to state and local taxes. Rules of state and local taxation of dividend and capital gains distributions from RICs often differ from the rules for federal income taxation described above. It is expected that the Fund will not be liable for any corporate excise, income or franchise tax in Massachusetts if it qualifies as a RIC for federal income tax purposes.

Many states grant tax-free status to dividends paid to you from interest the Fund earned on direct obligations of the U.S. government, subject in some states to minimum investment requirements that must be met by the Fund. Investments in GNMA and Fannie Mae securities, banker's acceptances, commercial paper and repurchase agreements collateralized by U.S. government securities do not generally qualify for such tax-free treatment. The rules on exclusion of this income are different for corporate shareholders. Shareholders are urged to consult their tax advisors regarding state and local taxes applicable to an investment in the Fund.

Because each shareholder's tax situation is different, shareholders should consult their tax advisor about the tax implications of an investment in the Fund.

Additional Considerations for the Fund. If at least 50% of the value of the Fund's total assets at the close of each quarter of its taxable years consists of debt obligations that generate interest exempt from U.S. federal income tax, then the Fund may qualify to pass through to its shareholders the tax-exempt character of its income from such debt obligations by paying tax-exempt interest dividends. The Fund intends to qualify and to provide shareholders with income exempt from U.S. federal income tax in the form of exempt-interest dividends. "Tax exempt-interest dividends" are dividends (other than capital gain dividends) paid by a RIC that are properly reported as such in a written statement furnished to shareholders. An underlying fund taxable as a RIC will generally be eligible to distribute exempt-interest dividends if at least 50% of its total assets at the close of each quarter of its taxable year consist of tax-exempt obligations. The Fund will report to its shareholders the portion of the distributions for the taxable year that constitutes tax-exempt interest dividends. The reported portion generally cannot exceed the excess of the amount of interest excludable from gross income under the Code received by the Fund during the taxable year over any amounts disallowed with respect to deductions for interest expense incurred to purchase or carry tax-exempt obligations. Similarly, interest on indebtedness incurred to purchase or carry shares of the Fund by shareholders will not be deductible to the extent that the Fund's distributions are exempt from the U.S. federal income tax. In addition, an investment in the Fund may result in federal alternative minimum tax ("Federal AMT") liability for certain shareholders. In the case of non-corporate taxpayers, certain deductions and exemptions have been designated an "item of tax preference" which must be added back to taxable income for purposes of calculating the Federal AMT for such shareholders. Tax preference items generally include tax-exempt interest on certain "private activity bonds." To the extent the Fund invests in certain private activity bonds, its non-corporate shareholders subject to the Federal AMT will be required to report that portion of the Fund's distributions attributable to income from the bonds as a tax preference item in determining their Federal AMT, if any. In addition, exempt-interest dividends may affect the federal corporate alternative minimum tax for certain corporations. Shareholders will be notified of the tax status of distributions made by the Fund. Interest paid on a municipal bond issued after December 31, 2017 to advance refund another municipal bond is subject to federal income tax.

Persons who may be "substantial users" (or "related persons" of substantial users) of facilities financed by private activity bonds should consult their tax advisers before purchasing shares in the Fund. Furthermore, non-corporate shareholders subject to the Federal AMT will not be permitted to deduct any of their share of the Fund's expenses in computing their Federal AMT.

Shareholders with questions or concerns about the Federal AMT should consult own their own tax advisors.

The IRS is paying increased attention to whether debt obligations intended to produce interest exempt from U.S. federal income tax in fact meet the requirements for such exemption. Ordinarily, the Fund relies on opinions from the issuer's bond counsel that interest on the issuer's debt obligation will be exempt from U.S. federal income tax. However, no assurance can be given that the IRS will not successfully challenge such exemption, which could cause interest on the debt obligation to be taxable and could jeopardize the Fund's ability to pay any tax-exempt interest dividends. Similar challenges may occur as to state specific exemptions.

The percentage of income that constitutes exempt-interest dividends will be determined for each year for the Fund and will be applied uniformly to all dividends declared with respect to the Fund during that year. This percentage may differ from the actual percentage for any particular day.

The deduction for interest on indebtedness incurred or continued by shareholders to purchase or carry shares of the Fund will be limited for federal income tax purposes to the extent that any portion of the Fund's distributions consists of exempt-interest dividends. The deduction otherwise allowable to property and casualty insurance companies for "losses incurred" will be reduced by an amount equal to a portion of exempt-interest dividends received or accrued during any taxable year. Foreign corporations engaged in a trade or business in the United States will be subject to a "branch profits tax" on their "dividend equivalent amount" for the taxable year, which will include exempt-interest dividends. Certain Subchapter S corporations may also be subject to taxes on their "passive investment income," which could include exempt-interest dividends. Up to 85% of the Social Security benefits or railroad retirement benefits received by an individual during any taxable year will be included in the gross income of such individual if the individual's "modified adjusted gross income" (which includes exempt-interest dividends) plus one-half of the Social Security benefits or railroad retirement benefits received by such individual during that taxable year exceeds the base amount described in Section 86 of the Code.

Any loss on the sale of shares of the Fund held for six months or less will be disallowed to the extent of any exempt-interest dividends received by the selling shareholder with respect to such shares.

Distributions of the Fund's income other than tax-exempt interest dividends generally will be taxable to shareholders. Gains realized by the Fund on the sale or exchange of investments that generate tax-exempt income will also be taxable to shareholders.

Although tax-exempt interest dividends are generally exempt from U.S. federal income tax (except for certain shareholders subject to the Federal AMT), there may not be a similar exemption under the laws of a particular state or local taxing jurisdiction. Thus, tax-exempt interest dividends may be subject to state and local taxes. You should consult your own tax advisor to discuss the tax consequences of your investment in the Fund.

Issuers of bonds purchased by the Fund (or the beneficiary of such bonds) may have made certain representations or covenants in connection with the issuance of such bonds to satisfy certain requirements of the Code that must be satisfied subsequent to the issuance of such bonds. Investors should be aware that exempt-interest dividends derived from such bonds may become subject to federal income taxation retroactively to the date thereof if such representations are determined to have been inaccurate or if the issuer of such bonds (or the beneficiary of such bonds) fails to comply with such covenants.

The Fund may not be a suitable investment for IRAs, for other tax-exempt or tax-deferred accounts or for investors who are not sensitive to the federal income tax consequences of their investments because such shareholders and plans would not gain any additional tax benefit from the receipt of exempt-interest dividends.

The state and local tax consequences of an investment in the Fund may differ from the federal consequences described above and shareholders are urged to consult their tax advisers with respect to such consequence.

Hawaii Taxation. The State of Hawaii has specifically adopted Sections 852 and 855 of the Code for the purposes of calculating the Fund's taxable income, which provisions provide for pass-through treatment of exempt-interest dividends and capital gains, *i.e.*, distributions by the Fund of dividends representing exempt interest and capital gains retain their original character in the hands of shareholders. Distributions from the Fund to its shareholders that are attributable to interest on obligations exempt from income tax in the State of Hawaii will not be subject to Hawaii income tax in the hands of shareholders so long as at least 50% of the Fund's assets are invested in securities the interest from which is exempt from Hawaii state taxation. In addition, interest income on obligations issued by the U.S. government and its territories is exempt from State of Hawaii income taxation. While the Fund intends to invest primarily in obligations that produce interest exempt from regular federal and Hawaii state tax, if the Fund invests in obligations that are not exempt for Hawaii income tax purposes, a portion of the Fund's distribution will be subject to Hawaii income tax.

FUND TRANSACTIONS

Brokerage Transactions. Generally, equity securities, both listed and over-the-counter, are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark up or reflect a dealer's mark down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, an adviser may place a combined order for two or more accounts it manages, including the Fund, engaged in the purchase or sale of the same security if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account or fund. Although it is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or the Fund may obtain, it is the opinion of the advisers that the advantages of combined orders outweigh the possible disadvantages of combined orders.

For the fiscal years ended December 31, 2022, 2023 and 2024, the Fund did not pay any aggregate brokerage commissions on portfolio transactions.

Brokerage Selection. The Trust relies on the Adviser to select brokers for Fund portfolio transactions. The Adviser does not expect to use one particular broker or dealer for Fund portfolio transactions. The Adviser selects brokers based on the broker's ability to provide "best execution." The Adviser considers a number of factors when selecting brokers, such as the broker's reputation and level of experience, the broker's ability to handle block trades and difficult transactions, commission rate, timeliness and accuracy of execution and settlement, the broker's familiarity with the market, the broker's reliability and integrity, the broker's fairness in resolving any disputes with respect to a trade, the time and size of the order and execution, available liquidity and current market conditions. In addition, when one or more brokers are believed capable of providing the best combination of price and execution, the Adviser may select a broker based upon brokerage or research services provided to the Adviser. The Adviser may pay a higher commission than otherwise obtainable from other brokers in return for such services only if a good faith determination is made that the commission is reasonable in relation to the brokerage or research services provided.

Section 28(e) of the 1934 Act permits the Adviser, under certain circumstances, to cause the Fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. In addition to agency transactions, the Adviser may receive brokerage and research services in connection with certain riskless principal transactions, in accordance with applicable SEC guidance. Brokerage and research services include: (i) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (ii) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy and the performance of accounts; and (iii) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement and custody). In the case of research services, the Adviser believes that access to independent investment research is beneficial to their investment decision-making processes and, therefore, to the Fund.

To the extent research services may be a factor in selecting brokers, such services may be in written form or through direct contact with individuals and may include information as to particular companies and securities as well as market, economic or institutional areas and information that assists in the valuation and pricing of investments. Examples of research-oriented services for which the Adviser might utilize Fund commissions include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser may use research services furnished by brokers in servicing all client accounts and not all services may necessarily be used in connection with the account that paid commissions to the broker providing such services. Information so received by the Adviser will be in addition to and not in lieu of the services required to be performed by the Adviser under the Advisory Agreement. Any advisory or other fees paid to the Adviser are not reduced as a result of the receipt of research services.

In some cases the Adviser may receive a service from a broker that has both a “research” and a “non-research” use. When this occurs, the Adviser makes a good faith allocation, under all the circumstances, between the research and non-research uses of the service. The percentage of the service that is used for research purposes may be paid for with client commissions, while the Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser faces a potential conflict of interest, but the adviser believes that its allocation procedures are reasonably designed to ensure that it appropriately allocates the anticipated use of such services to their research and non-research uses.

From time to time, the Adviser may purchase new issues of securities for clients, including the Fund, in a fixed price offering. In these situations, the seller may be a member of the selling group that will, in addition to selling securities for clients, provide the adviser with research services. FINRA has adopted rules expressly permitting these types of arrangements under certain circumstances. Generally, the seller will provide research “credits” in these situations at a rate that is higher than that which is available for typical secondary market transactions. These arrangements may not fall within the safe harbor of Section 28(e).

For the fiscal year ended December 31, 2024, the Fund did not pay any commissions on brokerage transactions directed to brokers pursuant to an agreement or understanding whereby the broker provides research services to the Adviser.

Brokerage with Fund Affiliates. The Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of either the Fund or the Adviser for a commission in conformity with the 1940 Act and rules promulgated by the SEC. The 1940 Act requires that commissions paid to the affiliate by the Fund for exchange transactions not exceed “usual and customary” brokerage commissions. The rules define “usual and customary” commissions to include amounts which are “reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time.” The Trustees, including those who are not “interested persons” of the Fund, have adopted procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically.

For the fiscal years ended December 31, 2022, 2023 and 2024, the Fund did not pay any aggregate brokerage commissions on portfolio transactions effected through affiliated brokers.

Securities of “Regular Broker-Dealers.” The Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the 1940 Act) that the Fund held during its most recent fiscal year. During the fiscal year ended December 31, 2024, the Fund did not hold any securities of its “regular brokers and dealers.”

Portfolio Turnover Rate. For the fiscal years ended December 31, 2023 and 2024, the Fund experienced the following portfolio turnover rates:

Portfolio Turnover Rate	
2023	2024
23%	15%

DESCRIPTION OF SHARES

The Declaration of Trust authorizes the issuance of an unlimited number of series and shares. Each share of the Fund represents an equal proportionate interest in the Fund with each other share of the Fund. Each share upon liquidation entitles a shareholder to a pro rata share in the net assets of the Fund. Shareholders have no preemptive rights. The Declaration of Trust provides that the Board may create additional series of shares or separate classes of series. All consideration received by the Trust for shares of any additional series or separate class and all assets in which such consideration is invested would belong to that series or separate class and would be subject to the liabilities related thereto. Share certificates will not be issued. The Fund’s shares, when issued, are fully paid and non-assessable.

PORTFOLIO HOLDINGS

The Board has approved a policy and procedures that govern the timing and circumstances regarding the disclosure of Fund portfolio holdings information to shareholders and third parties. This policy and the accompanying procedures are designed to ensure that disclosure of information regarding the Fund’s portfolio securities is in the best interests of Fund shareholders, and includes procedures to address conflicts between the interests of the Fund’s shareholders, on the one hand, and those of the Adviser, principal underwriter or any affiliated person of the Fund, the Adviser, or its principal underwriter, on the other. Pursuant to such procedures, the Board has authorized the President, Chief Compliance Officer, and portfolio managers to authorize the release of the Fund’s portfolio holdings, as necessary, in conformity with the foregoing principles. The Chief Compliance Officer reports quarterly to the Board regarding the implementation of such policies and procedures.

Pursuant to applicable law, the Fund is required to disclose its complete portfolio holdings quarterly, within 60 days of the end of each fiscal quarter (currently, each March 31, June 30, September 30, and December 31). The Fund files with the SEC a complete schedule of investments following the second and fourth fiscal quarters on Form N-CSR, and a complete schedule of investments following the first and third fiscal quarters as exhibits to Form N-PORT. Complete schedules of investments filed with the SEC on Form N-CSR and as exhibits to Form N-PORT are available, free of charge, on the SEC's website at www.sec.gov. The Fund's complete schedules of investments are also posted to the Fund's website (www.bishopstreetfunds.com) and are distributed to Fund shareholders upon request.

The Fund's website also provides information about the Fund's complete portfolio holdings, including some or all of the following: security description, ticker, security identification number, price per share, par value, and interest rate updated as of the end of the most recent calendar/fiscal quarter (*i.e.*, each March 31, June 30, September 30, and December 31) for the Fund. The information for the Fund is posted to the website 15 days after the end of each calendar/fiscal quarter. The information on the Fund's website is publicly available to all categories of persons. The portfolio holdings information placed on the Fund's website generally will remain there until such information is included in a filing on Form N-PORT or Form N-CSR as described above.

In addition to information provided to shareholders and the general public, from time to time rating and ranking organizations, such as S&P and Morningstar, Inc., may request complete portfolio holdings information in connection with rating the Fund. Similarly, institutional investors, financial planners, pension plan sponsors and/or their consultants may request a complete list of portfolio holdings in order to assess the risks of the Fund's portfolio along with related performance attribution statistics. The Fund believes that these third parties have legitimate objectives in requesting such portfolio holdings information. The Fund's policy and procedures provide that the Chief Compliance Officer may authorize disclosure of portfolio holdings information to such parties at differing times and/or with different lag times to such third parties provided that the recipient is, either by contractual agreement or otherwise by law, (i) required to maintain the confidentiality of the information and (ii) prohibited from using the information to facilitate or assist in any securities transactions or investment program.

No compensation or other consideration is paid to or received by any party in connection with the disclosure of portfolio holdings information, including the Fund, the Adviser and their affiliates or recipients of the Fund's portfolio holdings information.

In addition, portfolio holdings information may be disclosed as frequently as daily to the Fund's Adviser, Administrator, Custodian, Transfer Agent, financial printer, pricing vendors, liquidity analytics vendors, class action reclaim vendors, foreign tax reclaim vendors and other vendors that provide the Adviser with various middle office, back office, client reporting and portfolio analytics services in connection with their services to the Fund.

The Adviser may manage other accounts that are not subject to these policies and procedures with investment objectives and strategies that are substantially similar to those of the Fund. Because the portfolio holdings of such accounts may be substantially similar, and in some cases nearly identical, to those of the Fund, an investor in such an account may be able to infer the portfolio holdings of the Fund from the portfolio holdings of the account.

VOTING

Each share held entitles the shareholder of record to one vote. The shareholders of the Fund or class will vote separately on matters pertaining solely to the Fund or class, such as any distribution plan. As a Massachusetts business trust, the Trust is not required to hold annual meetings of shareholders, but approval will be sought for certain changes in the operation of the Trust and for the election of Trustees under certain circumstances. In addition, a Trustee may be removed by the remaining Trustees or by shareholders at a special meeting called upon written request of shareholders owning at least 10% of the outstanding shares of the Trust. In the event that such a meeting is requested, the Trust will provide appropriate assistance and information to the shareholders requesting the meeting.

Where the Prospectuses or SAI state that an investment limitation or a fundamental policy may not be changed without shareholder approval, such approval means the vote of (i) 67% or more of the Fund's shares present at a meeting if the holders of more than 50% of the outstanding shares of the Fund are present or represented by proxy, or (ii) more than 50% of the Fund's outstanding shares, whichever is less.

SHAREHOLDER LIABILITY

The Trust is an entity of the type commonly known as a "Massachusetts business trust." Under Massachusetts law, shareholders of such a trust could, under certain circumstances, be held personally liable as partners for the obligations of the trust. Even if, however, the Trust were held to be a partnership, the possibility of the shareholders' incurring financial loss for that reason appears remote because the Declaration of Trust contains an express disclaimer of shareholder liability for obligations of the Trust and requires that notice of such disclaimer be given in each agreement, obligation or instrument entered into or executed by or on behalf of the Trust or the Trustees, and because the Declaration of Trust provides for indemnification out of the Trust property for any shareholder held personally liable for the obligations of the Trust.

LIMITATION OF TRUSTEES' LIABILITY

The Declaration of Trust provides that a Trustee shall be liable only for his or her own willful defaults and, if reasonable care has been exercised in the selection of officers, agents, employees or investment advisers, shall not be liable for any neglect or wrongdoing of any such person. The Declaration of Trust also provides that the Trust will indemnify its Trustees and officers against liabilities and expenses incurred in connection with actual or threatened litigation in which they may be involved because of their offices with the Trust unless it is determined in the manner provided in the Declaration of Trust that they have not acted in good faith in the reasonable belief that their actions were in the best interests of the Trust. However, nothing in the Declaration of Trust shall protect or indemnify a Trustee against any liability for his or her willful misfeasance, bad faith, gross negligence or reckless disregard of his or her duties. Nothing contained in this section attempts to disclaim a Trustee's individual liability in any manner inconsistent with the federal securities laws.

PROXY VOTING

The Board has delegated the responsibility for decisions regarding proxy voting for securities held by the Fund to the Adviser. The Adviser will vote such proxies in accordance with its proxy voting policies and procedures, which are included in Appendix B to this SAI.

The Trust is required to disclose annually the Fund’s complete proxy voting record during the most recent 12-month period ended June 30 on Form N-PX. This voting record is available (i) without charge, upon request, by calling 1-800-262-9565, (ii) by visiting www.bishopstreetfunds.com; and (iii) on the SEC’s website at <http://www.sec.gov>.

PRINCIPAL SHAREHOLDERS AND CONTROL PERSONS

As of April 3, 2025, the following persons were record owners (or to the knowledge of the Trust, beneficial owners) of 5% or more of any class of the shares of the Fund. The Trust believes that most of the shares referred to below were held by the below persons in accounts for their fiduciary, agency or custodial customers. Persons beneficially owning more than 25% of the Fund’s outstanding shares may be deemed to “control” the Fund within the meaning of the 1940 Act. Shareholders controlling the Fund may have a significant impact on any shareholder vote of the Fund.

Hawaii Municipal Bond Fund		
Name and Address	Class of Shares	% of Class
C/O FIRST HAWAIIAN BANK SEI PRIVATE TRUST COMPANY ONE FREEDOM VALLEY DRIVE OAKS PA 19456-9989	Class I Shares	56.54%
CHARLES SCHWAB & CO INC SPECIAL CUSTODY A/C FBO CUSTOMERS ATTN MUTUAL FUNDS 211 MAIN STREET SAN FRANCISCO CA 94105-1901	Class A Shares	12.75%

FINANCIAL INFORMATION

The Fund’s audited financial statements dated December 31, 2024, including notes thereto and the report of the Fund's independent registered public accounting firm thereon, are included in the most recent Form [N-CSR](#) for the Fund, and are incorporated by reference into this SAI. Copies of the Fund's annual or semi-annual reports, and other information such as the Fund's financial statements, are available without charge at www.bishopstreetfunds.com or by calling 1-800-262-9565.

APPENDIX A
DESCRIPTION OF RATINGS

Description of Ratings

The following descriptions of securities ratings have been published by Moody's Investors Services, Inc. ("Moody's"), S&P Global Ratings ("S&P"), and Fitch Ratings ("Fitch"), respectively.

Description of Moody's Global Ratings

Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities. Long-term ratings are assigned to issuers or obligations with an original maturity of eleven months or more and reflect both on the likelihood of a default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment. Short-term ratings are assigned to obligations with an original maturity of thirteen months or less and reflect both on the likelihood of a default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment.

Description of Moody's Global Long-Term Ratings

Aaa Obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk.

Aa Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A Obligations rated A are judged to be upper-medium grade and are subject to low credit risk.

Baa Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Ba Obligations rated Ba are judged to be speculative and are subject to substantial credit risk.

B Obligations rated B are considered speculative and are subject to high credit risk.

Caa Obligations rated Caa are judged to be speculative of poor standing and are subject to very high credit risk.

Ca Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

C Obligations rated C are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Hybrid Indicator (hyb)

The hybrid indicator (hyb) is appended to all ratings of hybrid securities issued by banks, insurers, finance companies, and securities firms. By their terms, hybrid securities allow for the omission of scheduled dividends, interest, or principal payments, which can potentially result in impairment if such an omission occurs. Hybrid securities may also be subject to contractually allowable write-downs of principal that could result in impairment. Together with the hybrid indicator, the long-term obligation rating assigned to a hybrid security is an expression of the relative credit risk associated with that security.

Description of Moody's Global Short-Term Ratings

P-1 Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2 Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3 Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

Description of Moody's U.S. Municipal Short-Term Obligation Ratings

The Municipal Investment Grade ("MIG") scale is used to rate U.S. municipal cash flow notes, bond anticipation notes and certain other short-term obligations, which typically mature in three years or less.

Moody's U.S. municipal short-term obligation ratings are as follows:

MIG 1 This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

MIG 2 This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

MIG 3 This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

SG This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

Description of Moody's Demand Obligation Ratings

In the case of variable rate demand obligations ("VRDOs"), Moody's assigns both a long-term rating and a short-term payment obligation rating. The long-term rating addresses the issuer's ability to meet scheduled principal and interest payments. The short-term payment obligation rating addresses the ability of the issuer or the liquidity provider to meet any purchase price payment obligation resulting from optional tenders ("on demand") and/or mandatory tenders of the VRDO. The short-term payment obligation rating uses the Variable Municipal Investment Grade ("VMIG") scale. Transitions of VMIG ratings with conditional liquidity support differ from transitions of Prime ratings reflecting the risk that external liquidity support will terminate if the issuer's long-term rating drops below investment grade. For VRDOs, Moody's typically assigns a VMIG rating if the frequency of the payment obligation is less than every three years. If the frequency of the payment obligation is less than three years, but the obligation is payable only with remarketing proceeds, the VMIG short-term rating is not assigned and it is denoted as "NR".

Moody's demand obligation ratings are as follows:

VMIG 1 This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections.

VMIG 2 This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections.

VMIG 3 This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections.

SG This designation denotes speculative-grade credit quality. Demand features rated in this category may be supported by a liquidity provider that does not have a sufficiently strong short-term rating or may lack the structural or legal protections.

Description of S&P's Issue Credit Ratings

An S&P issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects S&P's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and this opinion may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Issue credit ratings can be either long-term or short-term. Short-term issue credit ratings are generally assigned to those obligations considered short-term in the relevant market, typically with an original maturity of no more than 365 days. Short-term issue credit ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term obligations. S&P would typically assign a long-term issue credit rating to an obligation with an original maturity of greater than 365 days. However, the ratings S&P assigns to certain instruments may diverge from these guidelines based on market practices. Medium-term notes are assigned long-term ratings.

Issue credit ratings are based, in varying degrees, on S&P's analysis of the following considerations:

- The likelihood of payment—the capacity and willingness of the obligor to meet its financial commitments on an obligation in accordance with the terms of the obligation;
- The nature and provisions of the financial obligation, and the promise S&P imputes; and
- The protection afforded by, and relative position of, the financial obligation in the event of a bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

An issue rating is an assessment of default risk but may incorporate an assessment of relative seniority or ultimate recovery in the event of default. Junior obligations are typically rated lower than senior obligations, to reflect lower priority in bankruptcy, as noted above. (Such differentiation may apply when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.)

NR indicates that a rating has not been assigned or is no longer assigned.

Description of S&P's Long-Term Issue Credit Ratings*

AAA An obligation rated 'AAA' has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitments on the obligation is extremely strong.

AA An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitments on the obligation is very strong.

A An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitments on the obligation is still strong.

BBB An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation.

BB; B; CCC; CC; and C Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposure to adverse conditions.

BB An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor's inadequate capacity to meet its financial commitments on the obligation.

B An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitments on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitments on the obligation.

CCC An obligation rated 'CCC' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitments on the obligation.

CC An obligation rated 'CC' is currently highly vulnerable to nonpayment. The 'CC' rating is used when a default has not yet occurred but S&P expects default to be a virtual certainty, regardless of the anticipated time to default.

C An obligation rated 'C' is currently highly vulnerable to nonpayment, and the obligation is expected to have lower relative seniority or lower ultimate recovery compared with obligations that are rated higher.

D An obligation rated 'D' is in default or in breach of an imputed promise. For non-hybrid capital instruments, the 'D' rating category is used when payments on an obligation are not made on the date due, unless S&P believes that such payments will be made within the next five business days in the absence of a stated grace period or within the earlier of the stated grace period or the next 30 calendar days. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. A rating on an obligation is lowered to 'D' if it is subject to a distressed debt restructuring.

* Ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.

Description of S&P's Short-Term Issue Credit Ratings

A-1 A short-term obligation rated 'A-1' is rated in the highest category by S&P. The obligor's capacity to meet its financial commitments on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitments on these obligations is extremely strong.

A-2 A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitments on the obligation is satisfactory.

A-3 A short-term obligation rated 'A-3' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken an obligor's capacity to meet its financial commitments on the obligation.

B A short-term obligation rated 'B' is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties that could lead to the obligor's inadequate capacity to meet its financial commitments.

C A short-term obligation rated 'C' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation.

D A short-term obligation rated 'D' is in default or in breach of an imputed promise. For non-hybrid capital instruments, the 'D' rating category is used when payments on an obligation are not made on the date due, unless S&P believes that such payments will be made within any stated grace period. However, any stated grace period longer than five business days will be treated as five business days. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. A rating on an obligation is lowered to 'D' if it is subject to a distressed debt restructuring.

Description of S&P's Municipal Short-Term Note Ratings

An S&P U.S. municipal note rating reflects S&P's opinion about the liquidity factors and market access risks unique to the notes. Notes due in three years or less will likely receive a note rating. Notes with an original maturity of more than three years will most likely receive a long-term debt rating. In determining which type of rating, if any, to assign, S&P's analysis will review the following considerations:

- Amortization schedule—the larger the final maturity relative to other maturities, the more likely it will be treated as a note; and
- Source of payment—the more dependent the issue is on the market for its refinancing, the more likely it will be treated as a note.

S&P's municipal short-term note ratings are as follows:

SP-1 Strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

SP-2 Satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

SP-3 Speculative capacity to pay principal and interest.

D 'D' is assigned upon failure to pay the note when due, completion of a distressed debt restructuring, or the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions.

Description of Fitch's Credit Ratings

Fitch's credit ratings relating to issuers are forward looking opinions on the relative ability of an entity or obligation to meet financial commitments. Credit ratings relating to securities and obligations of an issuer can include a recovery expectation. Credit ratings are used as indications of the likelihood of repayment in accordance with the terms of the issuance.

Fitch's credit rating scale for issuers and issues is expressed using the categories 'AAA' to 'BBB' (investment grade) and 'BB' to 'D' (speculative grade) with an additional +/- for AA through CCC levels indicating relative differences of probability of default or recovery for issues. The terms "investment grade" and "speculative grade" are market conventions and do not imply any recommendation or endorsement of a specific security for investment purposes. Investment grade categories indicate relatively low to moderate credit risk, while ratings in the speculative grade categories signal either a higher level of credit risk or that a default has already occurred.

Fitch may also disclose issues relating to a rated issuer that are not and have not been rated. Such issues are also denoted as 'NR' on its webpage.

Fitch's credit ratings do not directly address any risk other than credit risk. Credit ratings do not deal with the risk of market value loss due to changes in interest rates, liquidity and/or other market considerations. However, market risk may be considered to the extent that it influences the ability of an issuer to pay or refinance a financial commitment. Ratings nonetheless do not reflect market risk to the extent that they influence the size or other conditionality of the obligation to pay upon a commitment (for example, in the case of payments linked to performance of an index).

Credit ratings are indications of the likelihood of repayment in accordance with the terms of the issuance. In limited cases, Fitch may include additional considerations (i.e. rate to a higher or lower standard than that implied in the obligation's documentation).

Description of Fitch's Long-Term Corporate Finance Obligations Ratings

AAA Highest credit quality. 'AAA' ratings denote the lowest expectation of credit risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

AA Very high credit quality. 'AA' ratings denote expectations of very low credit risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A High credit quality. 'A' ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

BBB Good credit quality. 'BBB' ratings indicate that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

BB Speculative. 'BB' ratings indicate an elevated vulnerability to credit risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial alternatives may be available to allow financial commitments to be met.

B Highly speculative. 'B' ratings indicate that material credit risk is present.

CCC Substantial credit risk. 'CCC' ratings indicate that substantial credit risk is present.

CC Very high levels of credit risk. 'CC' ratings indicate very high levels of credit risk.

C Exceptionally high levels of credit risk. 'C' ratings indicate exceptionally high levels of credit risk.

Ratings in the categories of 'CCC', 'CC' and 'C' can also relate to obligations or issuers that are in default. In this case, the rating does not opine on default risk but reflects the recovery expectation only.

Defaulted obligations typically are not assigned 'RD' or 'D' ratings, but are instead rated in the 'CCC' to 'C' rating categories, depending on their recovery prospects and other relevant characteristics. This approach better aligns obligations that have comparable overall expected loss but varying vulnerability to default and loss.

Description of Fitch's Short-Term Ratings

A short-term issuer or obligation rating is based in all cases on the short-term vulnerability to default of the rated entity and relates to the capacity to meet financial obligations in accordance with the documentation governing the relevant obligation. Short-term deposit ratings may be adjusted for loss severity. Short-Term Ratings are assigned to obligations whose initial maturity is viewed as "short term" based on market convention (a long-term rating can also be used to rate an issue with short maturity). Typically, this means up to 13 months for corporate, sovereign, and structured obligations and up to 36 months for obligations in U.S. public finance markets.

Fitch's short-term ratings are as follows:

F1 Highest short-term credit quality. Indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added “+” to denote any exceptionally strong credit feature.

F2 Good short-term credit quality. Good intrinsic capacity for timely payment of financial commitments.

F3 Fair short-term credit quality. The intrinsic capacity for timely payment of financial commitments is adequate.

B Speculative short-term credit quality. Minimal capacity for timely payment of financial commitments, plus heightened vulnerability to near term adverse changes in financial and economic conditions.

C High short-term default risk. Default is a real possibility.

RD Restricted default. Indicates an entity that has defaulted on one or more of its financial commitments, although it continues to meet other financial obligations. Typically applicable to entity ratings only.

D Default. Indicates a broad-based default event for an entity, or the default of a short-term obligation.

APPENDIX B - PROXY VOTING POLICIES AND PROCEDURES

B-1

BISHOP STREET CAPITAL MANAGEMENT, LLC

Proxy Voting Policies and Procedures

Policy

Bishop Street Capital Management, LLC, as a matter of policy and as a fiduciary to our clients, has responsibility for voting proxies for portfolio securities consistent with the best economic interests of the clients. Our firm maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our firm's proxy policies and practices. Our policy and practice includes the responsibility to monitor corporate actions, receive and vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records.

Bishop Street Capital Management, LLC, through its affiliation with First Hawaiian Bank, has retained the services of Broadridge and Glass-Lewis, nationally recognized and independent proxy service providers, to provide research and automated voting for proxy issues based on Glass-Lewis' research.

Background

Proxy voting is an important right of shareholders and reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised.

Investment advisers registered with the SEC, and which exercise voting authority with respect to client securities, are required by Rule 206(4)-6 of the Advisers Act to (a) adopt and implement written policies and procedures that are reasonably designed to ensure that client securities are voted in the best interests of clients, which must include how an adviser addresses material conflicts that may arise between an adviser's interests and those of its clients; (b) to disclose to clients how they may obtain information from the adviser with respect to the voting of proxies for their securities; (c) to describe to clients a summary of its proxy voting policies and procedures and, upon request, furnish a copy to its clients; and (d) maintain certain records relating to the adviser's proxy voting activities when the adviser does have proxy voting authority.

Staff Legal Bulletin No. 20 was jointly published by the SEC's Division of Investment Management and Division of Corporation Finance on June 30, 2014. The Division of Investment Management provided guidance about investment advisers' responsibilities in voting client proxies and retaining proxy advisory firms, while the Division of Corporation Finance addressed the availability and requirements of two exemptions to the federal proxy rules that are often relied upon by proxy advisory firms.

Proxy Voting Advice as a Solicitation Under the Exchange Act

On July 22, 2020, the SEC adopted amendments to its rules governing proxy solicitations. The amendments specify that proxy voting advice generally constitutes a solicitation within the meaning of Section 14(a) of the Exchange Act.

The Commission noted several factors that indicate proxy voting advice businesses generally engage in solicitations when they provide proxy voting advice to their clients, including:

- The proxy voting advice generally describes the specific proposals that will be presented at the registrant's upcoming meeting and presents a "vote recommendation" for each proposal that indicates how the client should vote;

- Proxy voting advice businesses market their expertise in researching and analyzing matters that are subject to a proxy vote for the purpose of assisting their clients in making voting decisions;
- Many clients of proxy voting advice businesses retain and pay a fee to these firms to provide detailed analyses of various issues, including advice regarding how the clients should vote through their proxies on the proposals to be considered at the registrant's upcoming meeting or on matters for which shareholder approval is sought; and
- Proxy voting advice businesses typically provide their recommendations shortly before a shareholder meeting or authorization vote, enhancing the likelihood that their recommendations will influence their clients' voting determinations.

The Commission observed that where these or other significant factors are present, the proxy voting advice businesses' voting advice generally would constitute a solicitation subject to the Commission's proxy rules because such advice would be "a communication to security holders under circumstances reasonably calculated to result in the procurement, withholding or revocation of a proxy."

Exemptions

The SEC recognizes two exemptions to the solicitation rule:

1. When a business that provides proxy voting services does not provide any voting recommendations and is instead exercising delegated voting authority on behalf of its clients; and
2. Any proxy voting advice provided by a person who furnishes such advice only in response to an unprompted request.

However, the persons who provide proxy voting advice in reliance on the exemptions must include in their voting advice to clients the conflicts of interest disclosure specified in new Rule 14a-2(b)(9)(i). Such persons must include in their voting advice (or in any electronic medium used to deliver the advice) prominent disclosure of:

- Any information regarding an interest, transaction, or relationship of the proxy voting advice business (or its affiliates) that is material to assessing the objectivity of the proxy voting advice in light of the circumstances of the particular interest, transaction, or relationship; and
- Any policies and procedures used to identify, as well as the steps taken to address, any such material conflicts of interest arising from such interest, transaction, or relationship.

On July 13, 2022, the SEC voted to rescind Rules 14a-2(b)(9)(ii-iv) which required proxy advisor firms to make their advice available and to provide clients with a mechanism to become aware of information before they vote. This became effective on September 19, 2022.

Responsibility

The Chief Compliance Officer has the responsibility for the implementation and monitoring of our proxy voting policy, practices, disclosures and record keeping, including outlining our voting guidelines in our procedures.

Procedure

Bishop Street Capital Management, LLC has adopted various procedures and reviews to implement the firm's policy and to monitor and insure the firm's policy is observed, implemented properly and amended or updated as appropriate, which include the following:

PROXIES:

Broadridge receives all proxies and through the research service provider Glass-Lewis, votes the proxies for publicly traded companies, in accordance with Glass-Lewis' voting guidelines. Broadridge's and Glass-Lewis' responsibilities include:

- Review of proxies received against securities held and attempt to obtain any missing proxy materials/ballots prior to the voting deadline.
- Voting the proxies according to Glass-Lewis' recommendations.
- Transmitting the voted proxies to the issuer.
- Recording how each proxy was voted for each client.
- Maintaining appropriate proxy voting records by issuer and for clients.
- Prepare and provide proxy voting reports to clients upon client request.

Glass-Lewis votes all proxies based on their recommendations and underlying voting guidelines and value system. The BSCM Proxy Committee performs an annual review of the Glass-Lewis voting guidelines and value system to confirm that they are consistent with the best economic interests of the firm's clients. The BSCM Proxy Committee also performs an annual review of the Glass-Lewis Policies, Procedures and Practices Regarding Potential Conflicts of Interest to confirm that Glass-Lewis remains independent and objective in the formulation of its recommendations according to its voting guidelines and value system, as well as Glass-Lewis' Policies & Procedures, generally, for compliance with Rule 14a-2, as amended. All reviews and conclusions will be documented in minutes of the BSCM Proxy Committee and kept in the BSCM Proxy Voting file.

Quarterly, the Chief Compliance Officer or designate will review the Glass-Lewis voting recommendations for proxies voted for any BSCM holdings under its direct management upon which the firm has authority to act and that are not under the oversight of its subadvisers, where applicable, and test proxy votes cast by Glass-Lewis for compliance with the Glass-Lewis voting guidelines and value system then in effect.

CORPORATE ACTIONS:

For CORPORATE ACTIONS involving SECURITIES CLASS ACTIONS only, Bishop Street Capital Management, LLC relies on its custodians to act on behalf of its clients. For example, BSCM will rely on U.S. Bank, the custodian of Bishop Street Funds, to handle and keep records of all CLASS ACTION notices, claims, and proceeds in accordance with that custodian's policies and procedures pertaining to SECURITIES CLASS ACTIONS.

PROXY COMMITTEE:

The Proxy Committee shall consist of the following members: the CEO of BSCM, the Director of Fixed Income, and the Chief Compliance Officer.

DISCLOSURE:

Bishop Street Capital Management, LLC discloses a summary of our proxy voting policy and practices in the prospectus of Bishop Street Funds, which is updated annually.

RECORDKEEPING:

The Chief Compliance Officer has overall responsibility for maintaining files and records regarding BSCM's proxy policies and practices in an appropriate manner and for the required period, i.e., two years on-site in BSCM's offices and an additional five years off-site in secure and accessible facilities. The firm's recordkeeping procedures include the following:

- BSCM maintains relevant records, in paper or electronic format, internally and externally, including voting records of Glass-Lewis for all BSCM holdings.
- BSCM also works with the fund administrator, SEI Global Funds Services Inc., to maintain and file the Form N-PX of Bishop Street Funds for which BSCM acts as investment adviser.
